SANDROCK

Sandrock customers can benefit from a massive selection of consumable products as a result of our business partnership with GRP Solutions

- Increased buying power.
- Expanded and specialist product portfolios.
- Competitive pricing.
- Cost savings.
- Expert advice and exceptional service.
- Tailored solutions including consignment, personal and vending stock options.
- Special offers.
- Smaller minimum order sizes and lower carriage charges on all non-hazardous composite consumables.
- Next day or same day deliveries on orders placed before 11am (Island based). Ideal if you've missed your bulk delivery, need additional stock or have an urgent requirement.

Make the most of these significant advantages by speaking to your Sandrock Supply Manager, or calling us on 01983 864246 or email orders@sandrockservices.co.uk.

ABRASIVE ROLLS

**SAIT - ABRASIVE PAPER BACKED ROLL**

Full resin bonded aluminium oxide abrasive paper, D weight backing, extra open structure. For hand and orbital sanding operations. Dry uses.

Applications

- Wood
- Paints
- Fillers
- Plastic materials
- 115mm x 50mtr

ITEM

SAIT - Abrasive Paper Backed Roll 115mm x 50m P40
SAIT - Abrasive Paper Backed Roll 115mm x 50m P60
SAIT - Abrasive Paper Backed Roll 115mm x 50m P80
SAIT - Abrasive Paper Backed Roll 115mm x 50m P120
SAIT - Abrasive Paper Backed Roll 115mm x 50m P150
SAIT - Abrasive Paper Backed Roll 115mm x 50m P240

**MIRKA - GOLD VELCRO BACKED ROLL**

This durable, all-round sanding material is very well suited for high speed sanding in a multitude of applications. Gold features semi-open and special stearate coatings designed to prevent clogging and pill forming which helps achieve an optimal sanding result.

ITEM

MIRKA - GOLD Velcro Backed Roll 50m x 75mm P60
MIRKA - GOLD Velcro Backed Roll 50m x 75mm P80
MIRKA - GOLD Velcro Backed Roll 50m x 75mm P120
MIRKA - GOLD Velcro Backed Roll 50m x 75mm P180
MIRKA - GOLD Velcro Backed Roll 50m x 75mm P240
MIRKA - GOLD Velcro Backed Roll 50m x 75mm P320

**MIRKA - Q.SILVER VELCRO BACKED ROLL**

With a backing consisting of a flexible and strong impregnated latex paper, Q-Silver features optimal aggressivity, resulting in fast and efficient stock removal. The high heat endurance of this fully resin bonded abrasive makes it ideal for tough tasks, such as 'down-to-metal' sanding operations.

ITEM

MIRKA - Q.SILVER Velcro Backed Roll 25m x 115mm P80
MIRKA - Q.SILVER Velcro Backed Roll 25m x 115mm P120
MIRKA - Q.SILVER Velcro Backed Roll 25m x 115mm P180
MIRKA - Q.SILVER Velcro Backed Roll 25m x 115mm P240
MIRKA - Q.SILVER Velcro Backed Roll 25m x 115mm P320

ABRASIVE ROLLS / NON WOVEN ABRASIVES / SHEETS

MIRKA FIBRE A

Fibre discs are durable and flexible, suitable for sanding difficult surfaces. Fibre has firm dust binding properties which are needed when removing lacquer and rust or when sanding welding seams.

ITEM

MIRKA FIBRE A 115mm x 22mm P24 (25Discs)
MIRKA FIBRE A 115mm x 22mm P36 (25 Discs)
MIRKA FIBRE A 115mm x 22mm P60 (25 Discs)
MIRKA FIBRE A 115mm x 22mm P80 (25 Discs)
MIRKA FIBRE A 115mm x 22mm P120 (25 Discs)

NON WOVEN ABRASIVES

**MIRKA - MIRLON PADS**

Thanks to its special structure, Mirlon is a flexible, three-dimensional fibre sanding material that's easy to use on profiled surfaces and produces an excellent finish. It's ideal for matting of surfaces and creates an excellent base for the next lacquer layer.

ITEM

MIRKA - Mirlon Pads Green (Pack of 20) General Purpose
MIRKA - Mirlon Pads Red (Pack of 20) Very Fine
MIRKA - Mirlon Pads Grey (Pack of 20) Ultra Fine

**SAIT - WET AND DRY CWC**

Full resin bonded silicon carbide abrasive paper, C weight backing - with latex - closed structure. For hand operations. Dry and wet uses.

ITEM

SAIT - Wet & Dry 230mm x 280mm P80 (25 Sheets)
SAIT - Wet & Dry 230mm x 280mm P120 (25 Sheets)
SAIT - Wet & Dry 230mm x 280mm P180 (25 Sheets)
SAIT - Wet & Dry 230mm x 280mm P240 (25 Sheets)
SAIT - Wet & Dry 230mm x 280mm P320 (25 Sheets)
SAIT - Wet & Dry 230mm x 280mm P400 (25 Sheets)
SAIT - Wet & Dry 230mm x 280mm P500 (25 Sheets)
SAIT - Wet & Dry 230mm x 280mm P600 (25 Sheets)
SAIT - Wet & Dry 230mm x 280mm P800 (25 Sheets)
SAIT - Wet & Dry 230mm x 280mm P1000 (25 Sheets)
SAIT - Wet & Dry 230mm x 280mm P1200 (25 Sheets)
SAIT - Wet & Dry 230mm x 280mm P1500 (200 Sheets)
SAIT - Wet & Dry 230mm x 280mm P2000 (200 Sheets)

VELCRO DISCS & STRIPS

**MIRKA - BASECUT 15 HOLES**

Basecut is an economical, high-efficiency choice sanding paper. There's a host of productivity and efficiency features, including a high initial aggressive cut and a long working lifespan.

ITEM

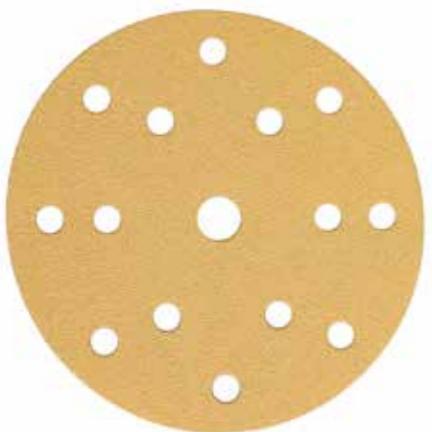

MIRKA - Basecut 15 Holes 150mm P40 (50 Discs)
MIRKA - Basecut 15 Holes 150mm P60 (50 Discs)
MIRKA - Basecut 15 Holes 150mm P80 (100 Discs)
MIRKA - Basecut 15 Holes 150mm P120 (100 Discs)
MIRKA - Basecut 15 Holes 150mm P240 (100 Discs)
MIRKA - Basecut 15 Holes 150mm P320 (100 Discs)
MIRKA - Basecut 15 Holes 150mm P400 (100 Discs)
MIRKA - Basecut 15 Holes 150mm P500 (100 Discs)
MIRKA - Basecut 15 Holes 150mm P600 (100 Discs)
MIRKA - Basecut 15 Holes 150mm P800 (100 Discs)

**MIRKA - ABRANET 150MM**

The multifunctional and classic Abranet is especially developed for sanding putty, primers, lacquers, composite materials and a wide range of other materials for industrial use. Abranet combines high performance and a longer lifespan than traditional abrasives, making it a cost-effective solution. Designed for dry sanding by machine or by hand, its true dust-free sanding characteristics result in a cleaner work environment, as well as a better surface finish.

ITEM

MIRKA - ABRANET 150mm P80 (50 Discs)
MIRKA - ABRANET 150mm P120 (50 Discs)
MIRKA - ABRANET 150mm P150 (50 Discs)
MIRKA - ABRANET 150mm P240 (50 Discs)
MIRKA - ABRANET 150mm P320 (50 Discs)
MIRKA - ABRANET 150mm P360 (50 Discs)
MIRKA - ABRANET 150mm P400 (50 Discs)
MIRKA - ABRANET 150mm P500 (50 Discs)
MIRKA - ABRANET 150mm P600 (50 Discs)

**MIRKA - GOLD 150MM 15 HOLES**

This durable, all-round sanding material is very well suited for high speed sanding in a multitude of applications. Gold features semi-open and special stearate coatings designed to prevent clogging and pill forming which helps achieve an optimal sanding result.

ITEM

MIRKA - GOLD 150mm 15 Holes P40 (50 Discs)
MIRKA - GOLD 150mm 15 Holes P60 (50 Discs)
MIRKA - GOLD 150mm 15 Holes P80 (100 Discs)
MIRKA - GOLD 150mm 15 Holes P120 (100 Discs)
MIRKA - GOLD 150mm 15 Holes P150 (100 Discs)
MIRKA - GOLD 150mm 15 Holes P180 (100 Discs)
MIRKA - GOLD 150mm 15 Holes P240 (100 Discs)
MIRKA - GOLD 150mm 15 Holes P320 (100 Discs)
MIRKA - GOLD 150mm 15 Holes P400 (100 Discs)
MIRKA - GOLD 150mm 15 Holes P500 (100 Discs)
MIRKA - GOLD 150mm 15 Holes P600 (100 Discs)

**MIRKA - AUTONET 150MM**

Specially developed for the automotive refinishing industry, Autonet is a new-age surface finishing solution offering speed, efficiency and an amazing dust extraction ability. The patented construction eliminates clogging and pilling and ensures a long lifespan, while other highlights include excellent initial aggressivity, reduced edge wear in finer grits and a versatile range to suit any application.

ITEM

MIRKA - AUTONET 150mm P80 (50 Discs)
MIRKA - AUTONET 150mm P120 (50 Discs)
MIRKA - AUTONET 150mm P180 (50 Discs)
MIRKA - AUTONET 150mm P240 (50 Discs)
MIRKA - AUTONET 150mm P320 (50 Discs)
MIRKA - AUTONET 150mm P400 (50 Discs)
MIRKA - AUTONET 150mm P500 (50 Discs)
MIRKA - AUTONET 150mm P600 (50 Discs)
MIRKA - AUTONET 150mm P800 (50 Discs)

**MIRKA - MICROSTAR 150MM 15 HOLES**

A general-purpose abrasive film product, designed for matting and paint rectification of top and clear coat applications. Microstar has a special stearate layer and a smooth film backing, with a high quality finish it lasts longer as it doesn't clog as easily as traditional products. Produces a fine scratch pattern that is easy to polish out.

ITEM

MIRKA - MICROSTAR 150mm 15 Holes P800 (50 Discs)
MIRKA - MICROSTAR 150mm 15 Holes P1000 (50 Discs)
MIRKA - MICROSTAR 150mm 15 Holes P1200 (50 Discs)
MIRKA - MICROSTAR 150mm 15 Holes P1500 (50 Discs)
MIRKA - MICROSTAR 150mm 15 Holes P2000 (50 Discs)

**MIRKA - ABRALON 150MM FOAM BACKED DISC**

Abralon is a unique, multifunctional sanding material developed for tackling both smooth and profiled surfaces. Its patented, flexible construction allows it to create a smooth sanding pattern on angled surfaces and edges while minimising the risk of pressure marks. The flexible weave also allows water and air to pass freely, making it suitable for both dry and wet sanding, by machine or by hand.

ITEM

MIRKA - ABRALON 150mm Foam Backed Disc P1000 (20 Discs)
MIRKA - ABRALON 150mm Foam Backed Disc P2000 (20 Discs)
MIRKA - ABRALON 150mm Foam Backed Disc P3000 (20 Discs)

VELCRO DISCS & STRIPS

**MIRKA - Q.SILVER 77MM NO HOLES**

With a backing consisting of a flexible and strong impregnated latex paper, Q-Silver features optimal aggressivity, resulting in fast and efficient stock removal. The high heat endurance of this fully resin bonded abrasive makes it ideal for tough tasks, such as 'down-to-metal' sanding operations.

ITEM

MIRKA - Q.Silver 77mm No Holes P80 (50 Discs)
MIRKA - Q.Silver 77mm No Holes P120 (50 Discs)
MIRKA - Q.Silver 77mm No Holes P320 (50 Discs)
MIRKA - Q.Silver 77mm No Holes P400 (50 Discs)
MIRKA - Q.Silver 77mm No Holes P500 (50 Discs)
MIRKA - Q.Silver 77mm No Holes P600 (100 Discs)
MIRKA - Q.Silver 77mm No Holes P800 (100 Discs)
MIRKA - Q.Silver 77mm No Holes P1000 (50 Discs)
MIRKA - Q.Silver 77mm No Holes P1200 (50 Discs)

**MIRKA - ABRANET GRIP STRIPS 70MM X 198MM**

The multifunctional and classic Abranet is especially developed for sanding putty, primers, lacquers, composite materials and a wide range of other materials for industrial use. Abranet combines high performance and a longer lifespan than traditional abrasives, making it a cost-effective solution. Designed for dry sanding by machine or by hand, its true dust-free sanding characteristics result in a cleaner work environment, as well as a better surface finish.

ITEM

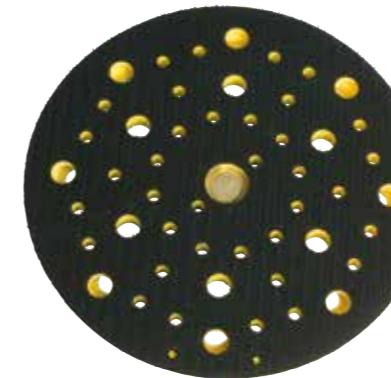

MIRKA - Abranet Grip Strips 70mm x 198mm P80 (50 Strips)
MIRKA - Abranet Grip Strips 70mm x 198mm P120 (50 Strips)
MIRKA - Abranet Grip Strips 70mm x 198mm P180 (50 Strips)
MIRKA - Abranet Grip Strips 70mm x 198mm P240 (50 Strips)
MIRKA - Abranet Grip Strips 70mm x 198mm P320 (50 Strips)
MIRKA - Abranet Grip Strips 70mm x 198mm P400 (50 Strips)
MIRKA - Abranet Grip Strips 70mm x 198mm P500 (50 Strips)
MIRKA - Abranet Grip Strips 70mm x 198mm P600 (50 Strips)

**6 PIECE LONGBOARD KIT**

6pc longbed sander kit: 1 x flexible long bed sanding block 70 x 400mm, 1 x hard long bed sanding block 70 x 400mm, 1 x small sanding block 35mm, 1 x yellow sanding block, 1 x rubber sanding block and 1 x half circular block for 150mm discs.

ITEM

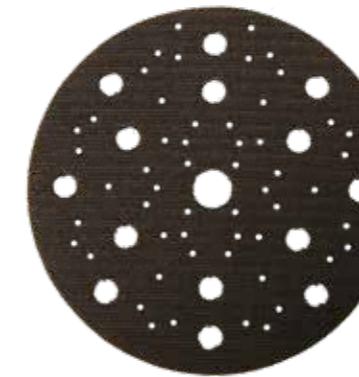

6 Piece Longboard Kit

**UNIVERSAL BACKING PAD**

Suitable for multi-holed discs and Abranet.

ITEM

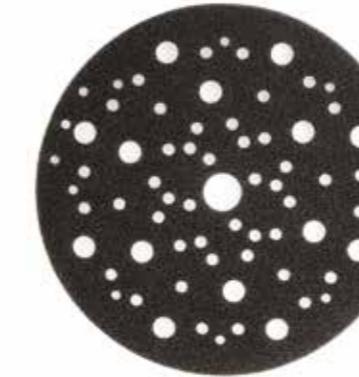

Universal backing pad 150mm 5/16" (medium)
--

**PAD SAVER**

Pad saver for 150mm backing pads. Mirka's pad savers are designed to protect the backing pad from wear and tear, when sanding aggressively and continuously with net products. These cost effective pad savers, placed between the backing pad and the sanding disc, should be changed regularly. The pad savers prolong the life of the backing pad.

ITEM

150mm Pad saver 67 Hole

**INTERFACE PAD**

The 5 mm thick multi hole interface pad is used in combination with grip sanding discs for sanding rounded surfaces and contours. The pad is developed to be used for light profile sanding, Paint Preparation sanding, Factory Primer (E-Coat) sanding and Top- and Clear Coat sanding. Using the interface pad will also produce a softer result. The Interface pad is placed between the backing pad and the sanding disc.

ITEM

150mm Interface Pad - 5mm 67 Hole (Pack of 5)

GORILLA GLUE

16

**SABATACK® 710**

Sabatack® 710 is a sprayable single-component, elastic, humidity-curing, MS polymer-based sealant. Sabatack® 710 is suitable for professional sealing and/or protection of seams, overlaps or sheet-metal work in various industries, such as transport and the maritime industry.

ITEM

Sabatack 710 black (290ml)

**SABATACK® 715**

Sabatack® 715 is a 1-component, permanently elastic (air) moisture-curing MS polymer-based adhesive with low viscosity for bonding various (plate) materials. Applicable in different industries in which permanently elastic and/or highly elastic sealing is used for materials and panels, such as in the vehicle and bodywork assembly, marine and home building and utility construction industries. Also suitable for full-surface bonding, provided that one of the substrates used is porous. Often applied in floor panels for means of transport, timber or PVC decks and interior panels.

ITEM

Sabatack 715 black (600ml)

**SABATACK® 720**

Sabatack® 720 is a 1-component, elastic, humidity-curing, MS polymer-based sealant and adhesive. Its primary use is to seal seams, overlaps and joints. Its secondary use is bonding, for which it is easy to apply. Sabatack® 720 has a medium viscosity and a low modulus of elasticity. Industrial and hand-made vehicle and coachwork construction, marine, ventilation and air conditioning, electro-technology, equipment assembly, metal and tin processing, plastics technology, civil & environmental engineering and building & construction. Used to seal seams, overlaps, joints and cracks. Also for the elastic bonding of frames, profiles, plates etc. Suitable for interior and exterior use. Fast sealing directly before painting.

ITEM

Sabatack 720 white (290ml)
Sabatack 720 white (600ml)
Sabatack 720 black (290ml)
Sabatack 720 black (600ml)
Sabatack 720 grey (290ml)
Sabatack 720 grey (600ml)
Sabatack 720 brown (600ml)

**SABATACK® 750**

Sabatack® 750 is a 1-component, elastic, humidity-curing, MS polymer-based construction adhesive. Its primary use is bonding with high tensile strength, for which it is easy to apply. Its secondary use is sealing seams, overlaps and joints. Sabatack® 750 has a medium viscosity and a high modulus of elasticity. Industrial and hand-made vehicle and coachwork construction, marine, ventilation and air conditioning, electro-technology, equipment assembly, metal and tin processing, plastics technology, civil & environmental engineering and building & construction. Used for the elastic bonding of frames, profiles, plates etc. Also for sealing seams, overlaps, joints and cracks. Suitable for interior and exterior use. Fast sealing directly before painting.

ITEM

Sabatack 750 white (290ml)
Sabatack 750 white (600ml)
Sabatack 750 black (290ml)
Sabatack 750 black (600ml)
Sabatack 750 grey (290ml)
Sabatack 750 grey (600ml)

**SABATACK® 750 XL**

Sabatack® 750 XL is a 1-component, elastic, humidity-curing, MS polymer-based construction adhesive. Its primary use is bonding, where it is easy to apply with high tensile strength. Its secondary use is sealing seams, overlaps and joints. Sabatack® 750 XL has a medium viscosity, a high modulus of elasticity and extended skin time and open time. Industrial and hand-made vehicle and coachwork construction, marine, ventilation and air conditioning, electro-technology, equipment assembly, metal and tin processing, plastics technology, civil & environmental engineering and building & construction. Used for the elastic bonding of frames, profiles, plates etc. Also for sealing seams, overlaps, joints and cracks. Suitable for interior and exterior use. Fast sealing directly before painting.

ITEM

Sabatack 750 XL white (290ml)
Sabatack 750 XL white (600ml)
Sabatack 750 XL black (290ml)
Sabatack 750 XL black (600ml)
Sabatack 750 XL grey (290ml)
Sabatack 750 XL teak (290ml)
Sabatack 750 XL mahogany (290ml)

SABATACK® 760 XL HT

Sabatack® 760 XL HT is suitable for bonding and sealing mineral glass and synthetic windows. It is a 1-component, elastic, (air) moisture-curing, MS-Polymer-based adhesive with extra high initial tack (sag-resistant) and a high final strength. Sabatack® 760 XL HT is suitable for the professional bonding and sealing of mineral glass and synthetic windows in transport vehicles and in the maritime sector.

ITEM

Sabatack 760 XL HT black (290ml)
Sabatack 760 XL HT black (600ml)

SABATACK® 785 XL

Sabatack® 785 XL is a stable 1-component, elastic, humidity-curing, MS polymer-based adhesive and sealant. Its primary use is bonding with high green strength (high viscosity) and high tensile strength. Its secondary use is sealing seams, overlaps and joints. Sabatack® 785 XL is highly viscous with a high modulus and an extended skin and open time. Industrial and hand-made vehicle and coachwork construction, marine, ventilation and air conditioning, electro-technology, equipment assembly, metal and tin processing, plastics technology, civil & environmental engineering and building & construction. For the elastic bonding of frames, profiles, plates, etc. Also for sealing seams, overlaps, joints and cracks. Suitable for interior and exterior use. Fast sealing directly before painting.

ITEM

Sabatack 785 XL white (600ml)
Sabatack 785 XL black (600ml)
Sabatack 785 XL grey (600ml)

SABATACK® 760 XXL

Sabatack® 760 XXL is suitable for bonding and sealing mineral glass and synthetic windows. It is a 1-component, elastic, (air) moisture-curing, MS-polymer-based adhesive with an extended skin formation time and a high final strength. Sabatack® 760 XXL is suitable for the professional bonding and sealing of mineral glass and synthetic windows in transport vehicles and in the maritime sector.

ITEM

Sabatack 760 XXL black (600ml)

SABATACK® 790

Sabatack® 790 is a fast-acting, high-strength 1-component, elastic, humidity-curing, MS polymer-based construction adhesive and sealant. Its primary use is bonding with fast handling, high green strength (high viscosity) and very high tensile strength. Its secondary use is sealing seams, overlaps and joints. Sabatack® 790 has a high viscosity and is high strength elasticity. Industrial and hand-made vehicle and coachwork construction, marine, ventilation and air conditioning, electro-technology, equipment assembly, metal and tin processing, plastics technology, civil & environmental engineering and building & construction. For the elastic bonding of frames, profiles, plates etc. Also for sealing seams, overlaps, joints and cracks. Suitable for interior and exterior use. Fast sealing directly before painting.

ITEM

Sabatack 790 white (600ml)
Sabatack 790 black (290ml)
Sabatack 790 black (600ml)

SABATACK® 780

Sabatack® 780 is a stable 1-component, elastic, humidity-curing, MS polymer-based adhesive and sealant. Its primary use is bonding with high green strength (high viscosity) and high tensile strength. Its secondary use is sealing seams, overlaps and joints. Sabatack® 780 has a high viscosity and a high modulus elasticity. Industrial and hand-made vehicle and coachwork construction, marine, ventilation and air conditioning, electro-technology, equipment assembly, metal and tin processing, plastics technology, civil & environmental engineering and building & construction. For the elastic bonding of frames, profiles, plates, etc. Also for sealing seams, overlaps, joints and cracks. Suitable for interior and exterior use. Fast sealing directly before painting.

Sabatack 780 white (290ml)
Sabatack 780 White (600ml)
Sabatack 780 black (290ml)
Sabatack 780 black (600ml)
Sabatack 780 grey (290ml)
Sabatack 780 grey (600ml)

SABATACK® FAST

Sabatack® Fast is a boosted construction adhesive, permanently elastic, (air) moisture-curing based on MS-polymer. Process secure and fast elastic bonding of different substrates like aluminium, steel, glass, polypropylene or polycarbonate. Sabatack® Fast is very suitable for full surface bonding and excellent for use in mass production.

ITEM

Sabatack Fast white (490ml duo cartridge)
Sabatack Fast black (490ml duo cartridge)

GORILLA GLUE ORIGINAL

The incredibly strong adhesive you can trust for the toughest jobs. Famous for its incredible strength and versatility, Original Gorilla Glue is 100% waterproof and resistant to extreme temperatures. The water activated polyurethane formula expands into materials to form an incredibly strong bond to virtually anything, making Gorilla Glue your solution for almost any project or repair.

ITEM

Gorilla glue original - 60ml
Gorilla glue original - 115ml
Gorilla glue original - 250ml
Gorilla glue original - 500ml
Gorilla glue original - 1L

GORILLA ALL-CONDITIONS SEALANT

The tough, versatile sealant that works indoors and out. Gorilla All-Conditions Sealant is the all purpose, all surface sealant that is perfect for both indoor and outdoor projects. It repels & prevents the growth of mould and mildew and can be exposed to water in just 30 minutes after application! Our fast set formula will hold-up through the toughest of conditions – as its durable, waterproof, shrink & crack proof and has a lifetime guarantee!

ITEM

Gorilla all-conditions sealant - White
Gorilla all-conditions sealant - Clear

GORILLA GLUE CLEAR

The crystal-clear glue for virtually invisible fixes. The strength and versatility you have come to expect from Gorilla Glue is now available in an easy to use, crystal clear, non-foaming formula. Gorilla Glue Clear bonds with a wide range of materials to create a virtually invisible bond. The incredibly strong formula is also water resistant, making it ideal for both indoor and outdoor applications.

ITEM

Gorilla glue original - 50ml
Gorilla glue original - 110ml
Gorilla glue original - 170ml

GORILLA EPOXY

The crystal clear, gap filling, two-part adhesive. Gorilla Epoxy delivers a strong, long-lasting bond to both household and automotive repairs. The easy-to-use syringe dispenses an equal amount of resin and hardener, that when mixed together creates a permanent, durable and water resistant bond. The two-part, gap-filling Gorilla Epoxy formula sets in 5 minutes and easily bonds steel, aluminium, glass, wood, ceramic, tile and most plastics*. Plus it dries crystal clear, ensuring your projects look spotless.

*Not recommended for use on polyethylene or polypropylene plastic or similar materials

ITEM

Gorilla epoxy - 25ml

GORILLA WOOD GLUE

The hard-working, water resistant wood glue. For a strong, fast bond across a variety of wood surfaces, Gorilla Wood Glue is the hard-working, water resistant formula, perfect for indoor and outdoor use. Gorilla Wood Glue offers the benefits of an easy-to-use, water based PVA adhesive, with the holding power that Gorilla is known for. It dries a natural colour so you're guaranteed a clean-looking bond line for your projects.

ITEM

Gorilla glue original - 118ml
Gorilla glue original - 236ml
Gorilla glue original - 532ml
Gorilla glue original - 1L

GORILLA GRAB ADHESIVE CRYSTAL CLEAR

Incredibly Strong, Extra Tough and Crystal Clear. Gorilla Grab Adhesive Crystal Clear is perfect for projects which require incredible strength and a clear, professional finish. This incredibly versatile adhesive is 5 x stronger than our heavy duty formula, making it our strongest grab adhesive yet! It's 100% waterproof, temperature resistant and bonds virtually anything! The gap filling formula also fills voids with little or no shrinkage.

ITEM

Gorilla grab adhesive crystal clear - 270ml

GORILLA HEAVY DUTY GRAB ADHESIVE

Grabs virtually anything with ultra-high strength. Gorilla Heavy Duty Grab Adhesive is so versatile, it grabs virtually anything instantly. The flexible, gap filling formula provides a long-lasting, heavy duty bond. This is a grab adhesive that's 100% waterproof and withstands extreme temperatures, meaning you can use it indoors or out, even underwater, for an extra-tough bond that'll last.

ITEM

- Gorilla Heavy Duty Grab Adhesive - 80ml
- Gorilla Heavy Duty Grab Adhesive - 200ml
- Gorilla Heavy Duty Grab Adhesive - 290ml

GORILLA TAPE ALL-WEATHER EXTREME

The tough tape for extreme weather conditions. Gorilla Tape All-Weather Extreme is the tough tape for extreme weather conditions. Extra-strong and extra-durable, it's perfect for permanent outdoor repairs. This tough tape is 100% waterproof and works in hot & cold temperatures – holding strong in rain, snow, sun, and extreme weather conditions.

ITEM

- Gorilla Tape All-Weather Extreme - 11m

GORILLA TAPE

Grips smooth, rough and uneven surfaces. Gorilla Tape Black is extra strong, double-thick and incredibly tough. Whether you need to stick rough, smooth or uneven surfaces, this is the duct tape with extra grip. Indoors and out, you can use Gorilla Tape where you want. The rugged all-weather shell withstands the elements, and the double-thick adhesive remains strong, whatever it faces. Designed to be tearable, developed to be durable, Gorilla Tape stands up to the test.

ITEM

- Gorilla Tape - 9m - Available in Black, White & Silver.
- Gorilla Tape - 11m - Available in Black, White & Silver.
- Gorilla Tape - 27m - Available in Black, White & Silver.
- Gorilla Tape - 32m - Available in Black, White & Silver.

GORILLA WATERPROOF PATCH & SEAL TAPE

Perfect for instantly repairing emergency leaks. Gorilla Waterproof Patch & Seal Tape is the extra-strong adhesive tape designed to patch holes, cracks, gaps and tears. The rubberised, UV-resistant backing can be flexed and stretched to adapt to your surfaces – forming a permanent waterproof, airtight* barrier. Great for: roofing, gutters, drainage pipes, tarpaulin, trailers, camping, pond liners and much more! *Reduced if porous material

ITEM

- Gorilla Waterproof Patch & Seal Tape - 3m - Black & White

GORILLA TAPE - CRYSTAL CLEAR

The tough tape that combines high strength with ultimate clarity. Gorilla Tape Crystal Clear is incredibly strong and perfect for virtually invisible repairs. This tape forms a flexible, airtight seal, indoors and out. Hand tearable with an ultra-strong adhesive layer, Gorilla Tape Crystal Clear is perfect for professionals, DIY, crafting and everyday uses. You can patch a conservatory roof, seal inflatables, repair camping equipment and more!

ITEM

- Gorilla tape crystal clear - 8m

GORILLA WATERPROOF PATCH & SEAL TAPE CLEAR

Perfect for instantly repairing emergency leaks. Gorilla Waterproof Patch & Seal Tape is a flexible tape which forms a permanent waterproof, airtight* barrier. This waterproof tape can patch holes, cracks, gaps and tears, with a rubberised backing which can be flexed and stretched to fit your surface. Great for: window frames, conservatories, inflatables, pond covers, caravans, trailers, gutters, drainage pipes, roofing, and more! *Reduced if used on porous material.

ITEM

- Gorilla Waterproof Patch & Seal Tape Clear - 2.4m

DURACELL PROCELL CONSTANT BATTERIES

Duracell Procell Constant batteries are part of the brand new range of professional Procell alkaline batteries, designed for businesses and trade customers who require large quantities. Procell Constant batteries are used by professionals around the world from engineers who need to replace batteries in equipment, to industries such as TV production, sound & vision, event organising, medical, hygiene, security, schools, universities, hotels, churches and local councils. Procell batteries are manufactured using superior cell design to guarantee high quality and performance and offer the dependable, long lasting power that you would expect from Duracell.

DURACELL PROCELL CONSTANT C BATTERIES

Procell Constant C batteries are the second largest of the 4 main cylindrical sizes, and are also known as MN1400, PC1400 or LR14.

- Typical Voltage: 1.5V
- Nominal Capacity: 9038mAh
- Operating Temperature Range: -20°C to 54°C
- Maximum Diameter: 26.2mm
- Maximum Height: 50.0mm
- Typical Weight: 70.7g
- Recommended Storage Area: Clean, cool, dry and ventilated
- Recommended Storage Temperature: 5°C to 30°C
- System: Alkaline Manganese Dioxide

DURACELL PROCELL CONSTANT AAA BATTERIES

Duracell Procell AAA batteries are the smallest of the 4 main sizes and are also known as MN2400, PC2400 or LR03.

- Typical Voltage: 1.5V
- Nominal Capacity: 1222mAh
- Operating Temperature Range: -20°C to 54°C
- Maximum Diameter: 10.5mm
- Maximum Height: 44.5mm
- Typical Weight: 11.6g
- Recommended Storage Area: Clean, cool dry and ventilated
- Recommended Storage Temperature: 5°C to 30°C
- System: Alkaline Manganese Dioxide

DURACELL PROCELL CONSTANT AA BATTERIES

Duracell Procell AA batteries are the most popular of the 4 main cylindrical sizes and are also known as MN1500, PC1500 or LR6.

- Typical Voltage: 1.5V
- Nominal Capacity: 3125mAh
- Operating Temperature Range: -20°C to 54°C
- Maximum Diameter: 14.5mm
- Maximum Height: 50.5mm
- Typical Weight: 24.7g
- Recommended Storage Area: Clean, cool, dry & ventilated
- Recommended Storage Temperature: 5°C to 30°C
- System: Alkaline Manganese Dioxide

PROCELL BATTERIES / PLUS BATTERIES

DURACELL PROCELL CONSTANT 9V BATTERIES

Procell 9V batteries are the rectangular battery, with two snap connectors on top. They are also known as PP3, MN1604, PC1604 or 6LP3146.

- Typical Voltage : 9V
- Nominal Capacity : 692mAh
- Operating Temperature Range: -20°C to 54°C
- Maximum Width: 26.5mm
- Maximum Depth : 17.5mm
- Maximum Height: 48.5mm
- Typical Weight: 48.7g
- Recommended Storage Area: Clean, cool, dry and ventilated
- Recommended Storage Temperature: 5°C to 30°C
- System: Alkaline Manganese Dioxide

COBALT TWIST DRILL BITS

COBALT TWIST DRILL BITS

Precision-engineered steel drill bits, with 5% cobalt shaft, for use on tough materials and hard steel, including stainless steel.

- Manufactured to DIN338 standards.
- 135° split point tip for spot drilling without pre-centring.
- Reduced drilling pressure required.
- Excellent resistance to heat and wear.
- M35 shaft with 5% cobalt.
- Right hand cutting at 30°, Type N.
- Suitable for drilling sheet metal, non-ferrous metal, steel, stainless steel and cast iron.

ARBORS

QUICK-HITCH ARBORS

With HSS, HSS Extended Length or Carbide Tipped Pilot Drills

- Two locating pins insert into the hole saw cap and prevent the hole saw over tightening on the screw thread.
- This allows easy and instant hole saw changes without tools and without removing the arbor from the chuck.

SDS-PLUS ARBOR SHANKS

With HSS, HSS Extended Length or Carbide Tipped Pilot Drills

- The SDS-Plus shank allows the arbors to be used in SDS-plus rotary hammer drills with the hammer action turned off.

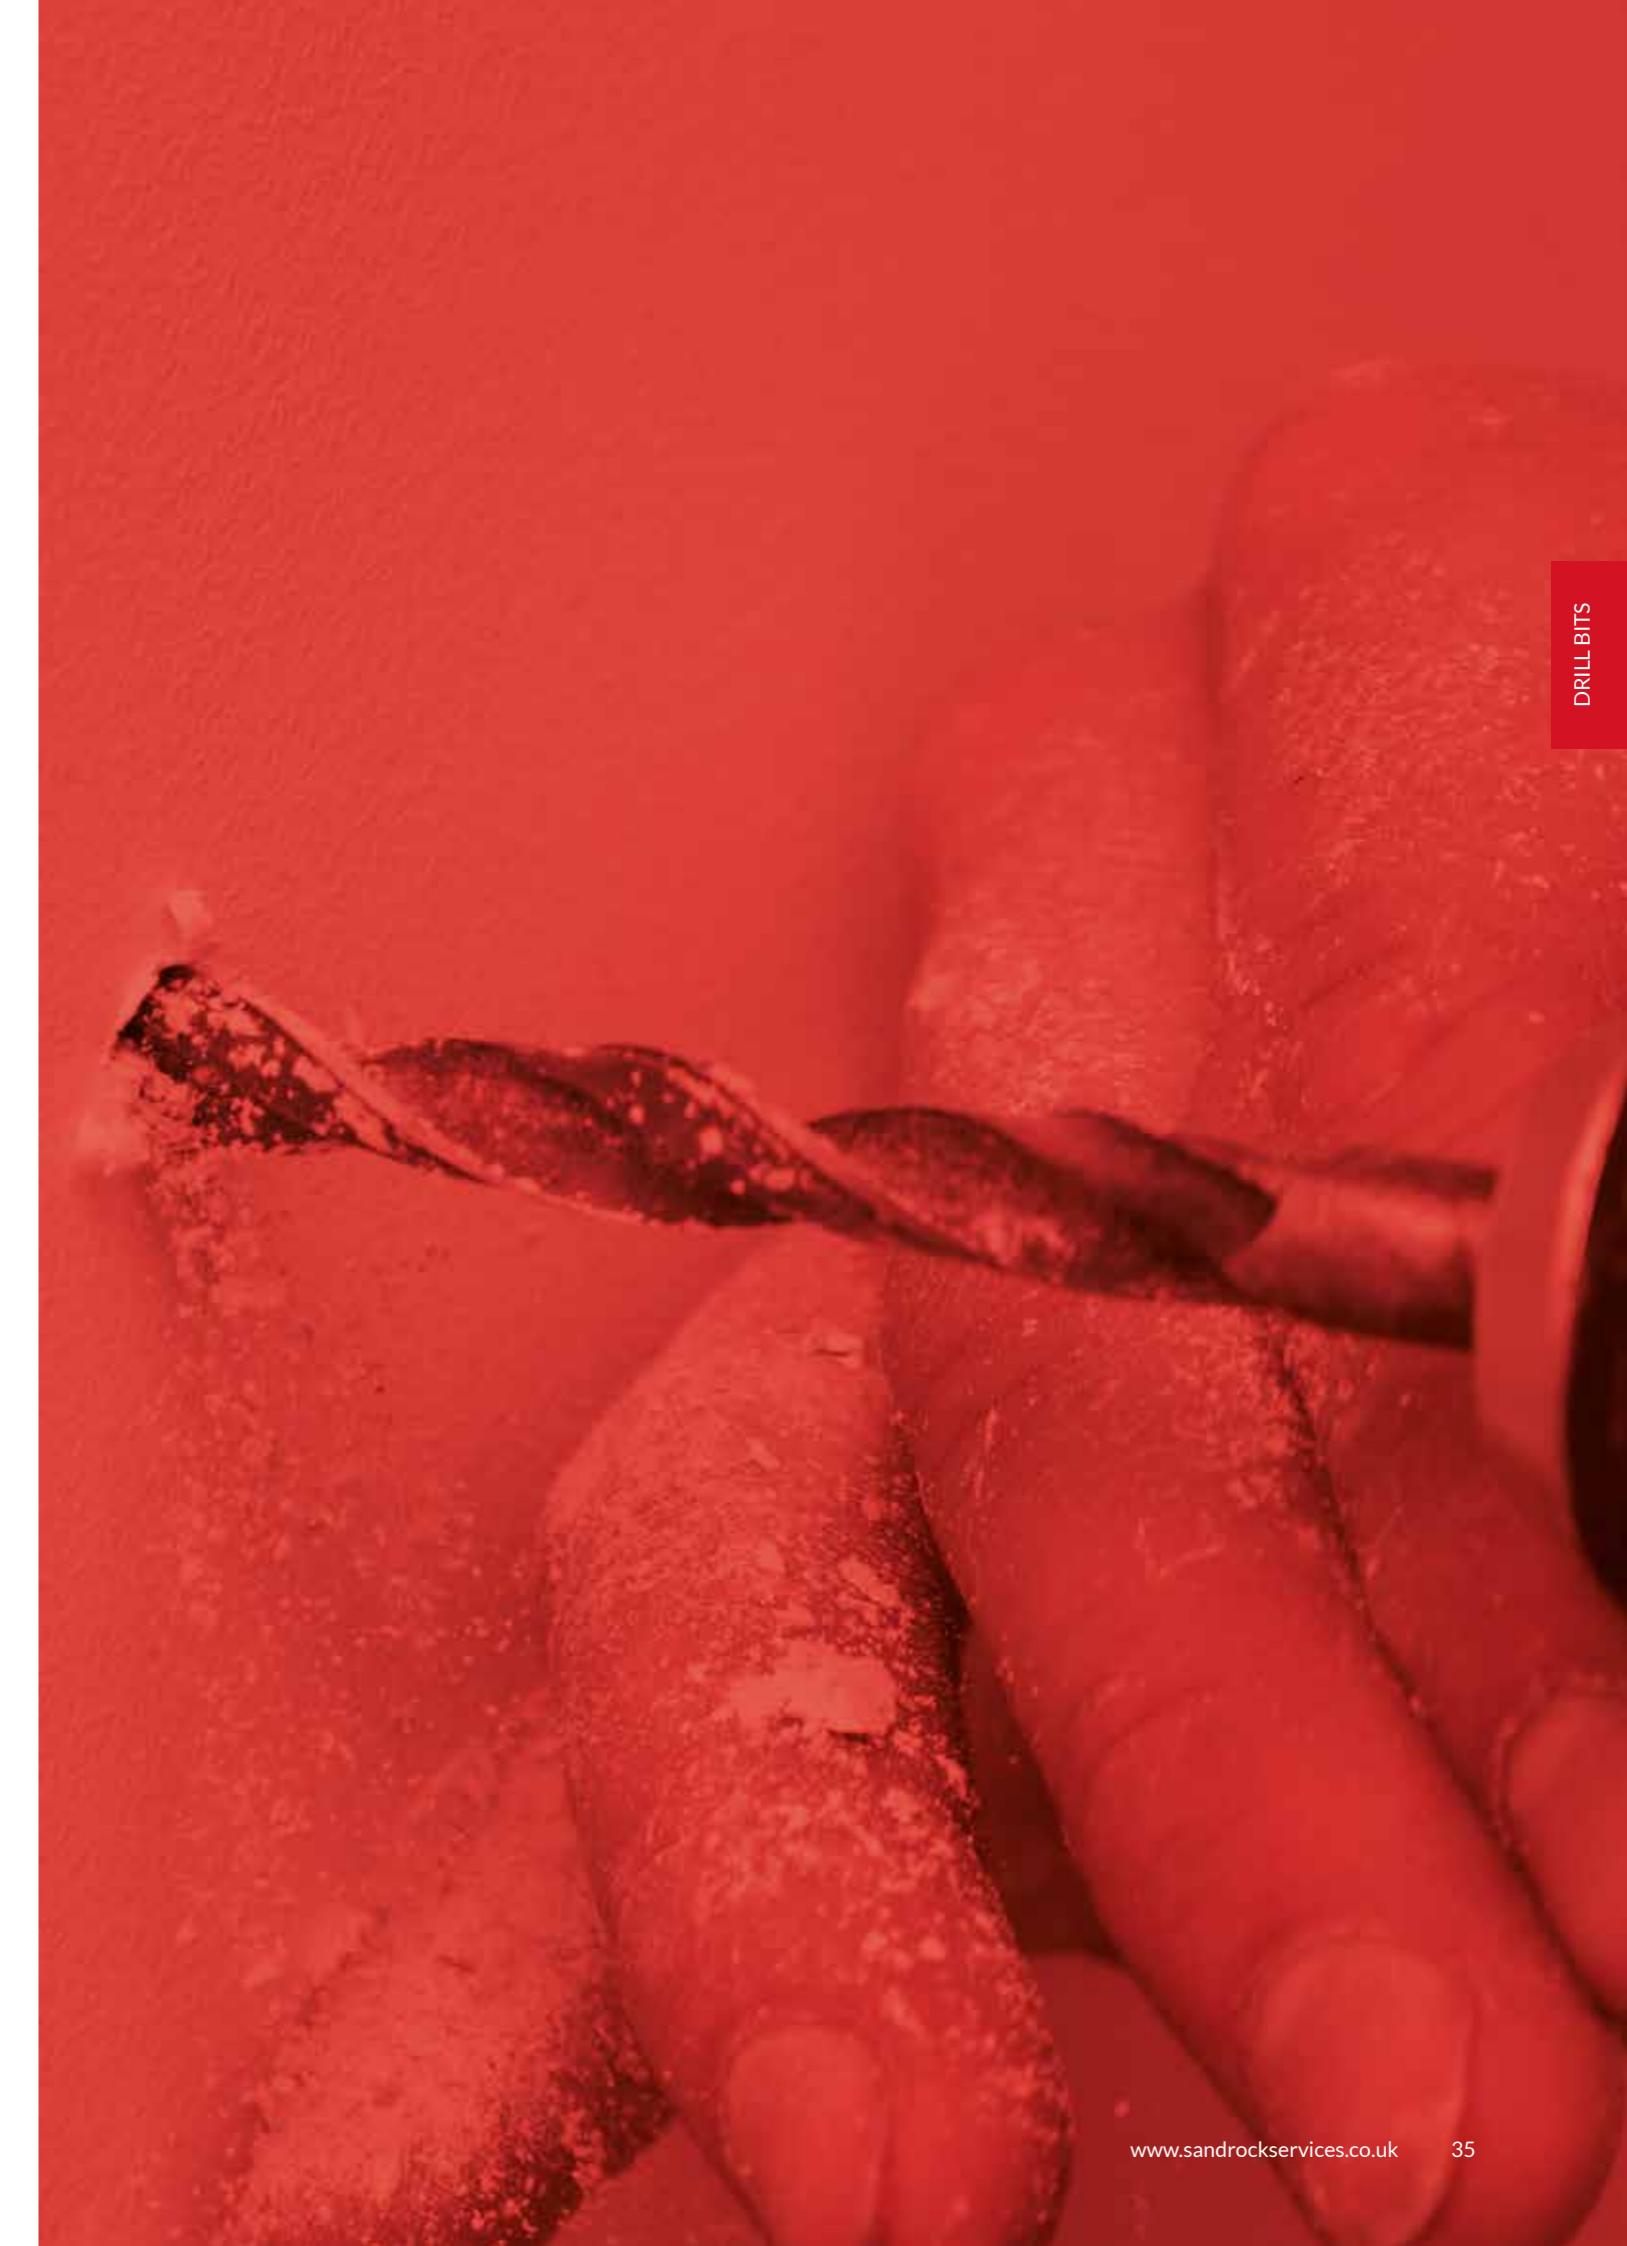

LOCKING ARBORS

With HSS, HSS Extended Length or Carbide Tipped Pilot Drills

- For use with hole saws diameters 32mm - 210mm (1.1/4" - 8.9/32"), the arbor locks tightly on the saw eliminating vibration.
- and is invaluable on exceptionally tough jobs and production runs.

RETRACTABLE TRIMMING KNIFE

Retractable Blade Knife which is ergonomically shaped for a good, comfortable grip. The blade extension can be controlled by the blade shifter, and 5 blade position allows a wider usage for a variety of cutting applications. For safety, the blade can be fully retracted into the body.

ITEM

- Retractable Trimming Knife

2 NOTCH HEAVY DUTY BLADE

Fixed trimming blade sold in boxes of 100.

ITEM

- 2 Notch Heavy Duty Blade (Box 100)

OLFA 45MM 45-C CARPET & ROLLER MATERIALS CUTTER

When you need to cut materials that are rolled, such as carpet, linoleum, landscape fabric, paper or more, the OLFA 45mm 45-C Roller Materials Cutter is the right tool for the job.

This hand-held cutting begins with a solid base that protects the surface below the cut. The heavy-duty ABS handle offers a large grip that is comfortable and easy to push, even when wearing gloves. The sturdy, flat base glides over the base surface for confident cutting without damage.

The tool comes preloaded with an extra-sharp OLFA 45mm Tungsten Steel Rotary Blade. The blade is fixed in place to provide leverage and easy cutting of demanding construction materials. Each blade offers (12) cutting points for volumes of work with less blade changes. When a section gets dull, loosen the wing-nut screw, and rotate the blade slightly for a fresh cutting edge. The screw design also provides fast and efficient tool-free blade changes.

- Cuts rolled materials
- Solid base protects surface below cut
- Heavy-duty ABS handle
- Tungsten-steel rotary blade
- (12) edges per blade for volume cutting

ITEM

- Olfa 45mm 45-C Carpet & Roller Materials Cutter

KENNEDY HACKSAW FRAME, 250MM, BLADE BI-METAL

Fitted with a die-cast 'D' style handle for user comfort and control, this adjustable hacksaw is ideal for cutting both metal and plastic. The epoxy coated tubular steel frame affords the product strength and rigidity and the blade can be set at 90° to the frame to allow cutting in areas with restricted access. Wingnut blade tensioning. Accepts 250mm (10") and 300mm (12") blades. Supplied with a 30cm blade.

- Die-cast aluminium handle allows for bolstered control and grip.
- Steel frame for durability and product longevity.
- Manual adjustment of the blade to allow you to adjust the tension to meet your needs.
- Can cut both metal and plastic making it a versatile product.

ITEM

- Kennedy Hacksaw Frame, 250mm, Blade Bi-metal

KENNEDY-PRO NYLON HAMMER, POLYPROPYLENE SHAFT, REPLACEABLE HEAD

With two screw on all-purpose hard nylon faces, this range of hammers are well suited for light to heavy duty applications. Fitted with a chrome plated head and a fully moulded polypropylene shaft with soft feel dual material grip, these hammers balance quality, comfort and efficiency. Available in varying face diameters to suit your needs.

- Soft feel dual material grip ensures comfort whilst using as well as improving grip.
- Chrome plated head protects from corrosion.
- Two nylon striking faces provide strong blows without marking your workpiece.
- Polypropylene handle and shaft for durability.
- Faces can be replaced to ensure your tool is always working at an optimum level.

ITEM

Kennedy-Pro Nylon Hammer 627g
Kennedy-Pro Nylon Hammer 800g
Kennedy-Pro Nylon Hammer 1185g

KENNEDY-PRO, 38MM NYLON HAMMER FACE, HARD, WHITE

Replaceable hard nylon face with thread. All-purpose face is suitable light and heavy duty applications and is designed to suit nylon faced hammers and safe blow hammers.

- Thread allows you to easily secure the face to your hammer.
- Suitable for both light and heavy-duty uses.
- Available in varying sizes to suit your needs.

ITEM

Kennedy-Pro 38mm Nylon Hammer Face, Hard, White

KENNEDY CLAW HAMMER

Available to purchase in varying sizes and specifications, including different shaft materials, this range of curved claw handles is suited for general, multi-purpose use. All products possess a fine grain, forged steel head, hardened and tempered with polished face and one curved claw. Each handle is designed for user comfort and control, no matter the material.

- One polished face and one curved claw for multi-purpose use.
- All products possess a drop forged steel head that is highly durable and delivers impactful blows.
- Available with either hardwood, hickory, fibreglass or tubular steel to suit your preferences and needs.
- Steel and fibreglass handled products also possess an anti-vibration feature to lessen the impact upon hands and wrists.
- Steel and fibreglass handled products also feature an anti-slip grip to increase user control. Available in varying sizes to suit your needs.

YAMATO DYNAMIC GRIP, 5M / 16FT, HEAVY DUTY TAPE MEASURE, METRIC, CLASS II

Comprising of a textured rubber case, lacquered blade and locking spring assisted blade return, this range of tape measures are ideal for working professionals. With a riveted metal end hook, steel belt clip and wrist strap and corrosion resistant finish, there is an emphasis on affordable quality. Complete with an action lock to hold the blade in place. Products that are 5m and longer, have tape hooks with four rivets, 3m/10' tape hooks have two. Products with a Metric/Imperial blade have 1/32", 1/16" inch and mm graduations, the metric-only blades have mm and cm graduations.

- Blades possess a lacquered finish to bolster resistance.
- Available to purchase with imperial and metric graduations, or metric only to suit your preferences.
- Textured rubber non-slip grip case for improved comfort and impact resistance.
- Steel belt clip and wrist strap to allow for ease of transportation.
- Spring assisted blade return and lock.
- Riveted metal hook end allows for accurate inside and outside measuring.

ITEM

Yamoto Dynamic Grip, 5m / 16ft, Heavy Duty Tape Measure

PILOT SC-PM, PAINT MARKER, WHITE, PERMANENT, BULLET TIP, SINGLE

ITEM

Pilot SC-PM, Paint Marker, White, Permanent, Bullet Tip, Single

STANLEY 0-47-440 30M OPP CHALK LINE

Stanley 0-47-440 chalk line with stainless steel hook and ergonomic design. Holds 30 metres of string and 30g of chalk with a sliding door for easy refills. This unit can also be used vertically as a plumb bob if required

ITEM

Stanley 0-47-440 30M OPP CHALK LINE

STANLEY CHALK REFILL, 4OZ

Suitable for all chalk lines, these chalk refills are manufactured from food grade calcium carbonate. Each product supplies good colour fastness and weather resistance.

- Available to buy in three colours to suit your needs - Blue is most widely used for all round interior and exterior use, Red is designed for external masonry work and White is designed for interior work such as carpet fitting.
- All products are water resistant for longevity.
- Supplied in twist and pour bottles for ease of application.
- Good all around resistance to all weather conditions for use inside and out.
- Chalk powder is specifically designed for superior adhesion and high visibility.

ITEM

Stanley Chalk Refill, 4oz, Blue

Stanley Chalk Refill, 4oz, Red

Stanley Chalk Refill, 4oz, White

KENNEDY SCREWDRIVER SLOTTED 5.5MM X 150MM

With a parallel tip to fit slotted head screws, this range of screwdrivers are suited for all professional uses. Featuring a traditional 'fluted' design handle, high quality steel blades with a satin finish and magnetic tips that are hardened and ground to prolong tool life.

- Traditional fluted design handle improves user comfort, grip and control.
- Magnetic tips to hold your fastener in place when applying torque.
- Blades are manufactured from steel for resilience and product longevity.
- Available in an array of sizes to suit your specific needs.
- Impact resistant plastic handles are both acid and oil resistant for durability.

ITEM

Kennedy Screwdriver Slotted 3mm x 100mm

Kennedy Screwdriver Slotted 3mm x 150mm

Kennedy Screwdriver Slotted 5.5mm x 100mm

Kennedy Screwdriver Slotted 5.5mm x 150mm

KENNEDY SCREWDRIVER PHILLIPS PH2 X 100MM

With a traditional 'fluted' design handle, these Crosspoint screwdrivers are designed to help eliminate slippage when applying torque to Crosspoint screws. Composed of a high-quality steel blade with a satin finish, a magnetic tip hardened and ground to prolong tool life, and high-impact plastic handles, this range of screwdrivers is ideal for professional applications. Available to buy in a variety of sizes, with the No.2 driver being suitable for most applications.

- Traditional fluted design handle improves grip and user comfort.
- Available in a variety of sizes to suit your requirements.
- High-quality steel blades with a satin finish are robust and suited for regular use.
- Magnetic tips allow the user to apply maximum torque whilst holding fasteners in place to avoid cam-out.
- High-impact plastic handles are durable and resistant to acid, oil, and general wear and tear.

ITEM

Kennedy Screwdriver Phillips PH2 x 100mm

Kennedy Screwdriver Phillips PH3 x 150mm

SENATOR DOUBLE END, COMBINATION SPANNER, 10MM, METRIC

Forged from vanadium steel, these superb quality combination spanners feature a satin finish. Double-ended with a bi-hexagon ring, both ends are offset at a 15° angle for convenience.

- Fully hardened and tempered for durability.
- Professional quality to suit a range of tasks.
- Offset ends allow easy access to nuts and bolts.
- Available in sizes ranging from 6mm-32mm to ensure you find the correct product for your application general wear and tear.

**AQUAWASH**

Aquamarine Aquawash is a top quality general purpose cleaning and degreasing agent. Originally developed in Scandinavia this unique combination of surface-active agents, sequestrants and alkaline builders was formulated for performance and economy and was designed to reduce the need for mechanical agitation, it is able to rapidly lift dirt, grime and oil from painted surfaces. It offers complete safety to the environment and persons handling it, being non-toxic, non-caustic, free from solvents and completely biodegradable. It is a non-flammable, water based cleaner, safe to use on all materials and can be used in non-ventilated areas. The use of advanced wetting agents gives it exceptional solvency power on dirt and oily matters and it splits after cleaning, releasing the oil phase for reclamation.

ITEM

Aquawash (25L)

**WHEELIE BIN BAG**

To fit wheelie bins and many other large size bins. Made from 100% recycled material. Ideal for office or household use.

ITEM

Wheelie Bin Bag - Heavy Duty (150 Per Pack)

CLEANING WIPES

**RESIN WIPES**

Removes Resin, Gelcoat, Paints, Sealants & Adhesives from Hands, Tools & Surfaces.

- Pleasant to use - Clean fresh Citrus Smell.
- Greatly reduces health & safety issues.
- Can remove almost anything from hands.
- Does not re-deposit material back onto surfaces.
- Perfect for site work (no hazardous chemicals required).

ITEM

Resin Wipes (150 Wipes Per Tub)

**WHITE SWING BIN LINERS**

White Bin Bag for Swing Bins.

ITEM

ITEM

4" Superfine Foam Roller Refill

**4" MOHAIR ROLLER REFILL**

This mini roller is made on 17mm diameter thermally bonded, acetone resistant core. Made from 100% pure new wool this 4mm pile height fabric is premium woven fabric specially designed for the application of gel coat. Very low fibre loss, combined with its pale cream colour and dense pure wool fibres, makes this our top recommendation.

ITEM

4" Mohair Roller Refill

**4" SUPER FLOCKED MINI ROLLER REFILL**

The High-density Foam is covered with a very fine short pile synthetic flock for an extra smooth finish. Guaranteed no Fibre Loss. Ideal use: Gloss, primers, varnishes and all oil and solvent based paints. Surface area: Smooth or slightly textured surfaces. Flocked foam gives a superior smooth finish with gloss, primers, varnishes and all oil and solvent based paints. For use on smooth or slightly textured surfaces.

ITEM

4" Super Flocked Mini Roller Refill

**4" JUMBO MOHAIR ROLLER REFILL**

Acetone resistant core. Made from 100% pure new wool this 4mm pile height fabric is premium woven fabric specially designed for the application of gel coat. Very low fibre loss, combined with its pale cream colour and dense pure wool fibres, makes this our top recommendation.

ITEM

4" Jumbo Mohair Roller Refill

**6" BLUE STRIPE ROLLER REFILL**

This roller is made on a 41mm diameter, polypropylene thermally bonded, acetone resistant core. Made from 100% polyamide fibres woven into its backing, the fibres are thermotreated to give them a crimped effect which helps the fibres pick up, hold and distribute the maximum amount of material. In addition the backing of this high end fabric is treated to reduce even further the possibility of fibre loss in use.

ITEM

6" Bluestripe Roller Refill

**4" MINI BLUE STRIPE ROLLER REFILL**

This mini roller is made on 17mm diameter thermally bonded, acetone resistant core. Made from 13mm pile 100% polyamide fibres woven into its backing. The fibres are thermotreated to give a crimped effect which helps the fibres pick up, hold and distribute the maximum amount of material. In addition the backing of this high end fabric is treated to reduce even further the possibility of fibre loss in use.

ITEM

4" Bluestripe Mini Roller Refill

**6" VELOUR ROLLER REFILL**

For a smooth finish. Ideal use: Gloss, primers, varnishes and all oil and solvent based paints. Surface area: Smooth or slightly textured surfaces.

ITEM

6" Velour Roller Refill

**4" JUMBO BLUE STRIPE ROLLER REFILL**

This jumbo mini roller is made on 30mm diameter thermally bonded, acetone resistant core. Almost twice the diameter of a standard mini roller for faster working. Made from 13mm high 100% polyamide fibres woven into its backing. The fibres are thermotreated to give them a 'crimped' effect which helps the fibres pick up, hold and distribute the maximum amount of material. In addition the backing of this high end fabric is treated to reduce even further the possibility of fibre loss in use.

ITEM

4" Bluestripe Jumbo Roller Refill

**6" LAMBSWOOL ROLLER REFILL**

This roller is made on 48mm diameter, polypropylene thermally bonded, acetone resistant core. Made from 22mm pile pale cream polyester fibres knitted into its backing. (Long 22mm polipile polyester fibre has to be knitted, whereas, very short pile polyester fibre - such as our Dakota, can be woven). The knitting fixes the fibres less securely than weaving, so some fibre loss is to be expected.

ITEM

6" Lambswool Roller Refill (Nut & Bolt)

**6" & 7" MOHAIR ROLLER REFILL**

This roller is made on 41mm diameter, polypropylene thermally bonded, acetone resistant core. Made from a velvet like very short pile polyester fibre, woven into its backing for strength. Will give a bubble free and fluff free finish when used for gelcoat application.

ITEM

- 6" Mohair Roller Refill
- 7" Mohair Roller Refill

**7" CAGE ROLLER REFILL**

Long pile polyester roller refill.

ITEM

- 7" x 1.5" Cage Roller Refill (18mm Pile)
- 7" x 1.75" Cage Roller Refill (18mm Pile)

**7" & 10" BLUE STRIPE ROLLER REFILL**

This roller is made on 48mm diameter, polypropylene thermally bonded, acetone resistant core. Made from 100% polyamide fibres, woven into its backing. The fibres are thermotreated to give them a crimped effect which helps the fibres pick up, hold and distribute the maximum amount of material. In addition the backing of this high end fabric is treated to reduce even further the possibility of fibre loss in use.

ITEM

- 7" Bluestripe Roller Refill
- 10" Bluestripe Roller Refill

FRAMES

**3" FRAME**

3" nut and bolt roller handle.

ITEM

- 3" Frame (Nut & Bolt)

**4" FRAME**

To fit all our 4" mini rollers and jumbo mini rollers. The frame is made from 6mm diameter steel.

ITEM

- 4" Roller Frame (11" long)
- 4" Roller Frame (17" long)
- 4" Roller Frame (21"long)

**6" FRAME**

Frames are made of 6mm diameter steel, suitable for use with all push on 6" refills.

ITEM

- 6" Roller Frame (Push On)

**6" ROLLER FRAME (NUT & BOLT)**

6" nut and bolt roller handle

ITEM

- 6" Roller Frame (Nut & Bolt)

**7" FRAME**

Frames are made of 8mm diameter steel, suitable for use with all push on 7" refills.

ITEM

- 7" Roller Frame (Push On)

**CAGE FRAME**

Strong durable plastic handle with an 8mm wire arm.

ITEM

- 7" x 1.5" Cage Frame
- 7" x 1.75" Cage Frame

**ALUMINIUM EXTENSION POLE**

Fluted aluminium construction, extendable to 6ft. Strong but lightweight. Twist lock mechanism screw thread, supplied with a push fit adaptor for use with all frames.

ITEM

- 6ft Aluminium Extension Pole

**YELLOW WAX FILLER**

Void and Joint filler for sheet wax. Pelikan Nakiplast contains beeswax and is very easy to use, stays soft and workable. And does not stain hands.

ITEM

Yellow Wax Filler (650g) Pack of 2

**WAX FILLET**

Wax fillets are easily applied to straight or irregularly shaped surfaces because of the flexibility. Produce and maintain accurate radii regardless of application conditions.

ITEM

Wax Fillet 1/4" (100 ft)

Wax Fillet 1/8" (100 ft)

Wax Fillet 3/16" (100 ft)

**PLASTIC FILLET & FILLET RUBBER TOOL**

The perfect tool to apply wax fillets & plasticine to moulds & patterns to form radii.

ITEM

Plastic Wax Fillet Tool - Small 6mm x 10mm

Plastic Wax Fillet Tool - Medium 12mm x 15mm

Plastic Wax Fillet Tool - Large 20mm x 25mm

Plastic Wax Fillet Tool Set of 3

Metal Wax Fillet Tool - Small 6mm x 9mm

Metal Wax Fillet Tool - Medium 12mm x 15mm

Metal Wax Fillet Tool - Set of 3

**PLASTIC WEDGE**

Plastic wedges are an ideal and professional method for demoulding the finished lay up without causing damage to the "Gelcoat".

ITEM

Yellow Rigid Plastic Wedge 100mm x 38mm

Yellow Rigid Plastic Wedge 130mm x 55mm

Yellow Rigid Plastic Wedge 175mm x 75mm

Yellow Rigid Plastic Wedge 215mm x 38mm

Black Flexible Plastic Wedge 100mm x 38mm

Black Flexible Plastic Wedge 130mm x 55mm

Black Flexible Plastic Wedge 175mm x 75mm

Black Flexible Plastic Wedge 215mm x 38mm

**RUBBER MALLET**

Black rubber mallet.

ITEM

16oz Rubber Mallet

**ADHESIVE SPREADER**

Adhesive Spreaders 3" & 8".

ITEM

3" Adhesive Spreader

8" Adhesive Spreader

RELEASE AGENTS

**MIRACLE GLOSS® MG681 SEMI-PERMANENT RELEASE AGENT**

A rapid curing polymer release agent that provides multiple releases for moulders of polyester, vinyl esters, DCPD, phenolic, and epoxy resins. It is universally excellent for open or closed moulding.

- Will not transfer.
- Minimal streaking.
- 400°C temperature stability.
- Multiple releases between applications.
- Compatible with all non-porous tooling surfaces.

ITEM

MG681 Semi-Permanent Release Agent - 1 Gallon Can

**MIRACLE GLOSS® MG680 SEMI-PERMANENT RELEASE AGENT**

A rapid curing polymer release agent that provides multiple releases for moulders of polyester, vinyl esters, DCPD, phenolic, and epoxy resins. It can be applied by wiping on or spraying on and does not require buffing afterwards.

- Will not transfer.
- Minimal streaking.
- 400°C temperature stability.
- Wipe on or spray on with no buffing.
- Multiple releases between applications.
- Compatible with all non-porous tooling surfaces.

ITEM

MG680 Semi-Permanent Release Agent - 1 Gallon Can

MG480 MOULD SEALER

A high performance sealer for composite and metal moulds. It is designed to seal micro porosity and small surface imperfections and acts as a base coat for any Miracle Gloss TM mould release agent.

- Will not transfer
- Minimal streaking
- Minimizes porosity issues
- 400°C temperature stability
- Compatible with all non-porous tooling surfaces
- Superb base coat for all types of release agents

ITEM

MG480 Mould Sealer - 1 Quart Can

MG380 MOULD CLEANER

A powerful blend of solvents that when used on non-porous tooling surfaces will effectively remove waxes, grease, oils, and other surface contaminates. MG380 Mould Cleaner is highly recommended to clean brushes, rollers, and to flush spray equipment.

ITEM

MG380 Mould Cleaner - 1 Gallon Can

MIRACLE GLOSS® MG670 WATER BASED SEMIPERMANENT MOULD RELEASE AGENT

A unique, ambient cure water based semi-permanent mould release agent designed to release phenolic, epoxy, isophthalic, orthophthalic, DCPD and vinyl ester resin systems. It combines fast cure with outstanding chemical and abrasion resistance. It gives a smooth, continuous film with unmatched adhesion to the mould.

- Ambient cure. Does not require heat to cure.
- Non-Flammable.
- VOC free.
- Will not transfer to the part.
- Application temperature up to 400°C (750°F).
- Tough, abrasion resistant film.
- Excellent adhesion to mould surfaces.
- Stable resin emulsion - 1 year shelf life.

ITEM

MG670 Mould Release Agent - 1 Gallon Plastic Bottle

MG670 Mould Release Agent - 5 Gallon Plastic Pail

MG670 Mould Release Agent - 55 Gallon Plastic Drum

MG580 ECO LIQUID WAX

A versatile low cost wax emulsion designed for non-class A surfaces. It effectively releases non-gel coated polymer concrete products, cast polymer hats and replaces low cost flange or slurry waxes. It further replaces Mylar as the release system for male mandrel moulding and can be used as a release agent for compression moulding.

- Extreme low cost.
- Evaporates rapidly.
- 177°C temperature stability.
- Creates a durable wax surface
- Non-hazardous and non-flammable.
- Applied by airless spray, HVLP, brush, bag or roller.

ITEM

MG380 Mould Cleaner - 1 Gallon Plastic Bottle

MG380 Mould Cleaner - 5 Gallon Plastic Pail

MG380 Mould Cleaner - 55 Gallon Plastic Drum

HONEY WAX

Honey wax.

ITEM

Honey Wax (14oz)

86 SEAL KOTE

Seal coat to seal porosity.

ITEM

86 Seal Kote Porosity Sealer (US Gal)

PVA RELEASE AGENT

Release Agent is a liquid, water based solution of Poly Vinyl Alcohol which facilitates the easy removal of GRP mouldings from any type of mould. It is useful in providing an extra barrier on top of silicone free wax release agents between the mould and polyester resins used in the moulding process, especially where fast moulding cycles are in use.

ITEM

Glossy Blue PVA Release Agent (5 Ltr)

Matt Blue PVA Release Agent (5 Ltr)

Glossy Clear PVA Release Agent (5 Ltr)

RELEASE AGENTS

**1000P**

Standard mould release wax.

ITEM

1000P Hi-Low Paste Wax (14.5 oz)

**1000L**

Hi-Low Liquid Wax.

ITEM

1000L Anti-Static Hi/Low Liquid Release wax (US Gal)

**1004/23**

Specifically designed for brush gel applications. Reduces incidence of fish eyeing.

ITEM

1004-23 Gelcoat Release Wax (14.5 oz)

**333MR**

Blue paste release wax. Hard surface wax – high temp.

ITEM

333MR Blue Paste Wax (14.5 oz)

**69 STRIPPER**

Liquid release and stripper. Relieves wax build up – does not remove styrene burns.

ITEM

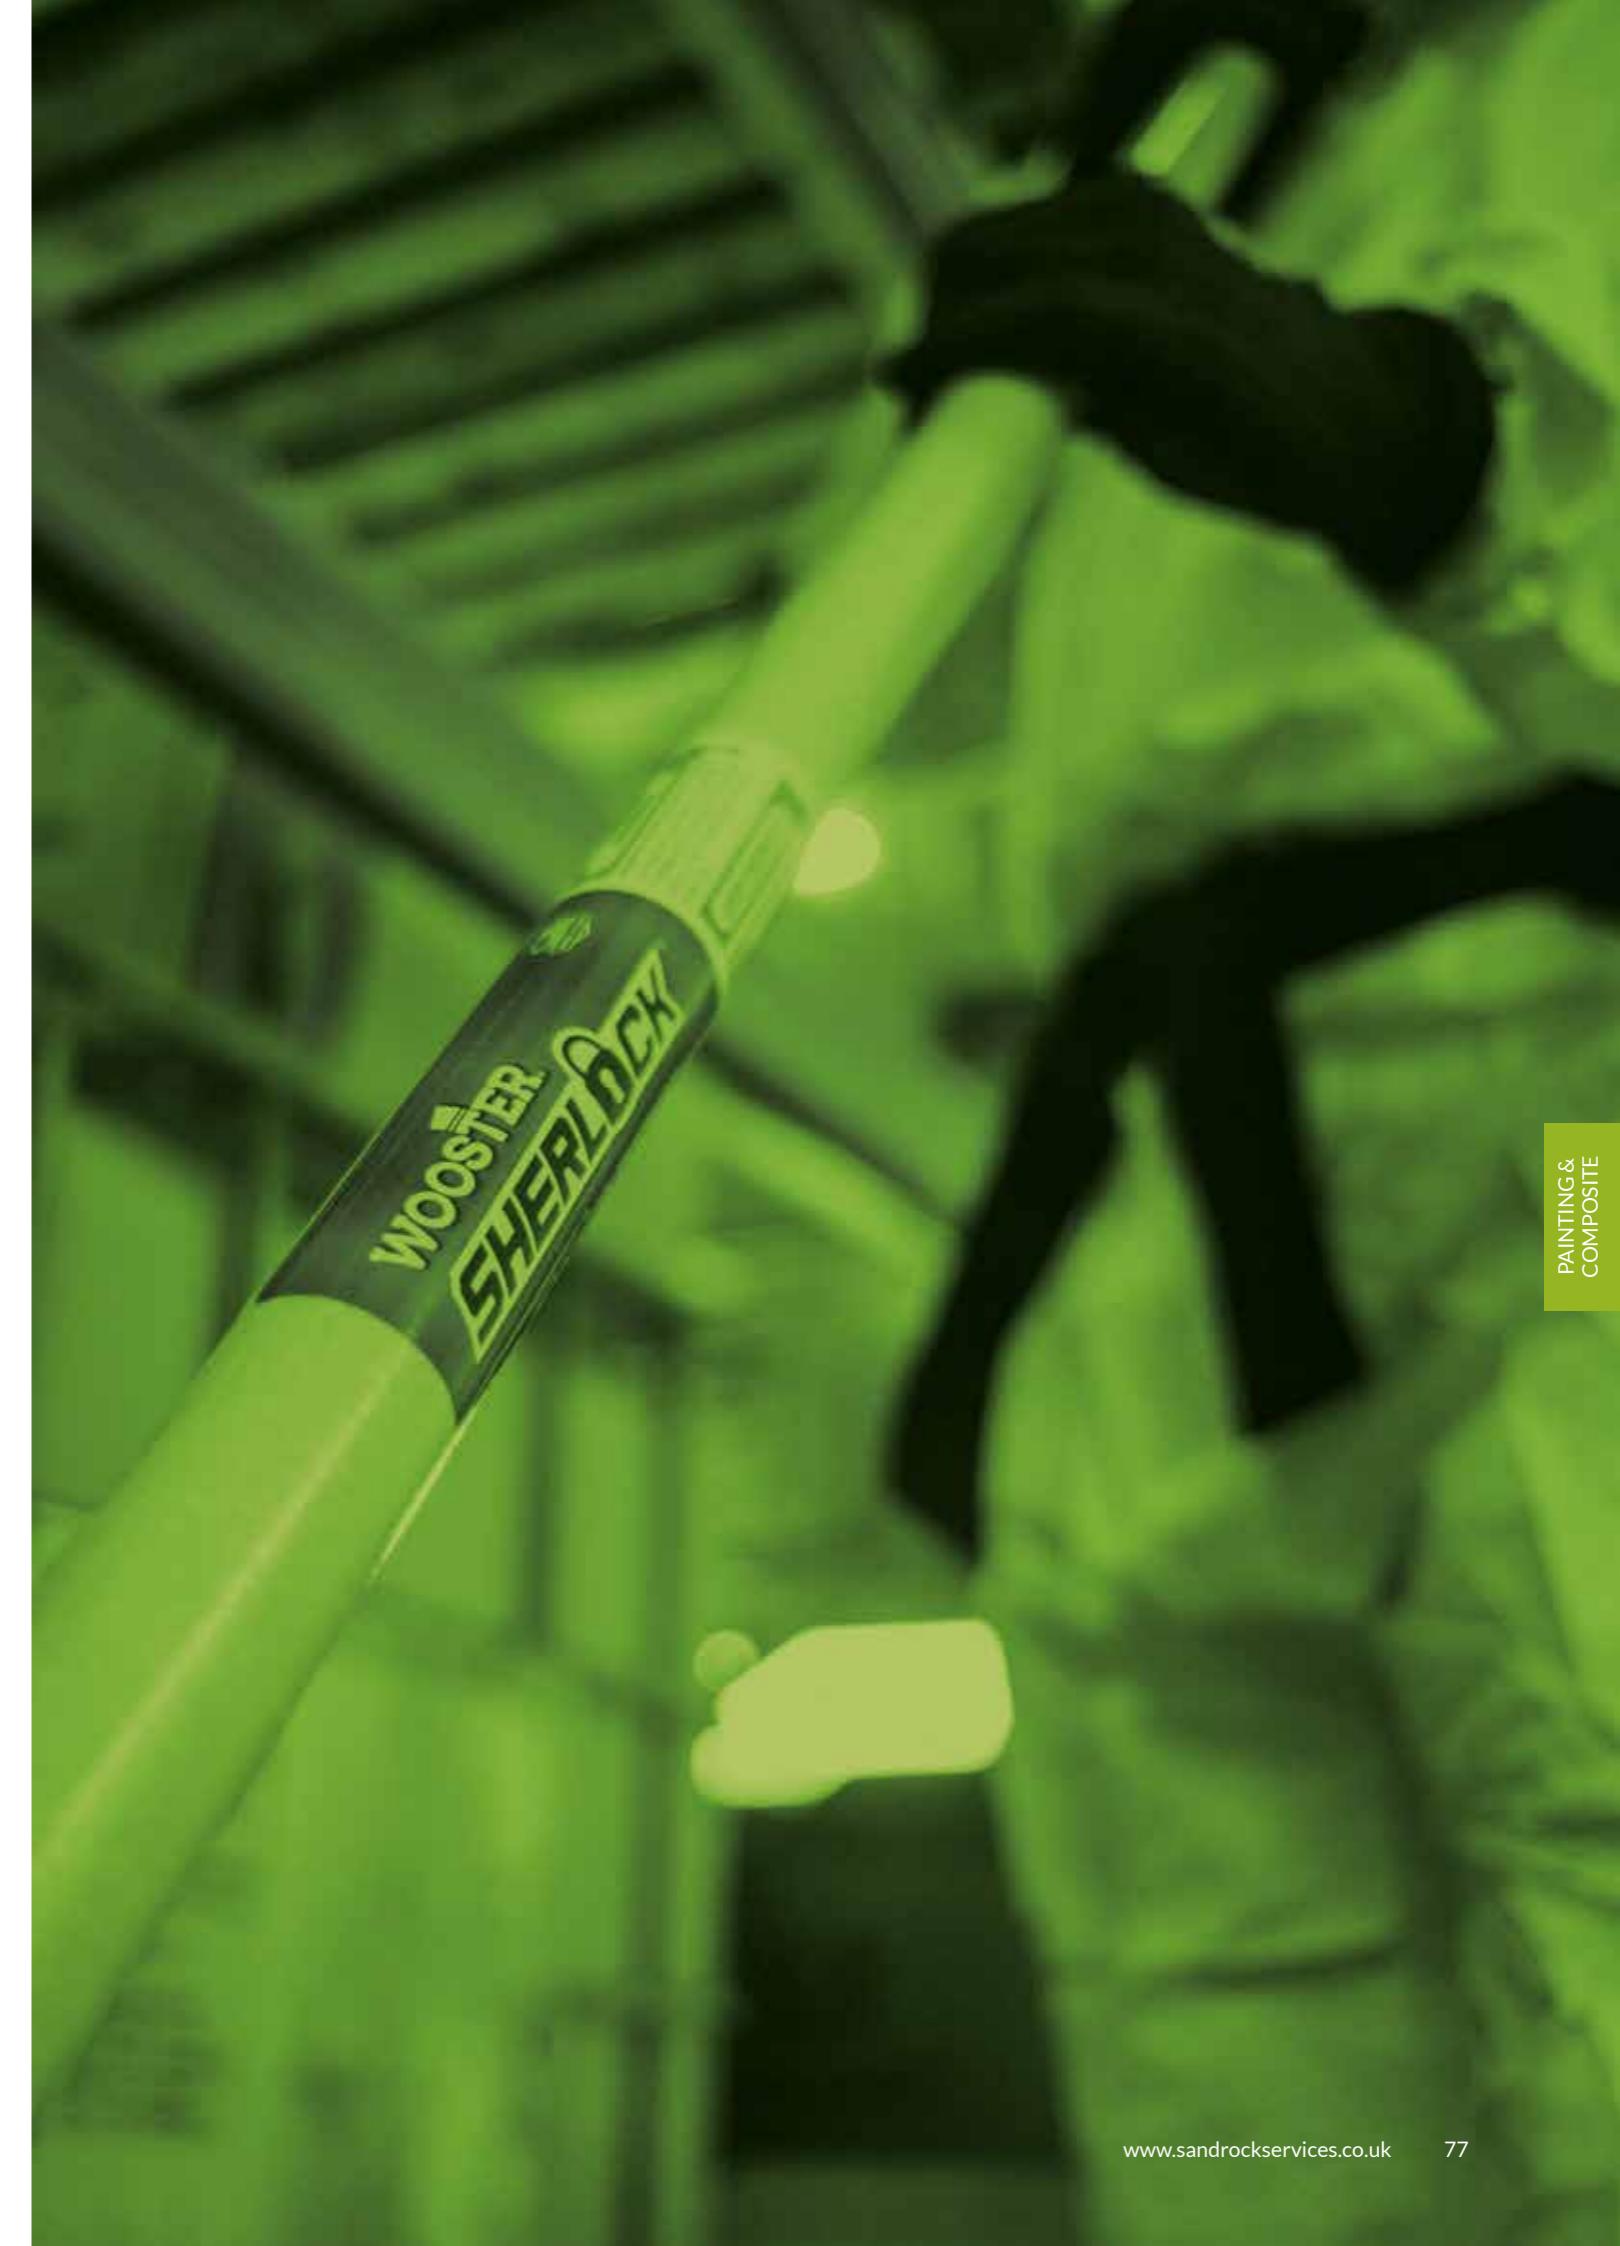

69 Anti-Static Liquid Release & Stripper (US Gal)

**68 EDGE WAX**

Edge and flange wax.

ITEM

68 Edge Wax (US Gal)

EAR PROTECTION / EYE PROTECTION

EAR DEFENDERS

Ideal hearing protection against noise arising from environments with substantial industrial noise or construction machinery. Soft wide cushions helps reduce pressure around the ears and improves comfort and wearability. Large space inside cup helps reduce moisture and heat build-up. Easy to replace cushions and inserts helps keep them hygienically clean.

ITEM

3M PELTOR Optime II Ear Muffs, 31 dB, Green

PURA-FIT FOAM EAR PLUGS (200 PAIRS)

The Moldex Pura-fit corded/uncorded ear plugs are an improved polyurethane tapered design, this combined with large diameter and extended length provides high levels of attenuation and comfort. Individually wrapped plugs

ITEM

Pura-fit Foam Ear Plugs (200)

EYE PROTECTION

CLEAR SAFETY GLASSES

Lightweight, durable glasses in a modern wraparound style. Hard Coated for improved scratch resistance. Complies with the requirements of the European Standard EN166:2001 "Personal Eye Protection" EN 166 1 F. Suitable for continued use (Class 1 optical). Low energy impact (resists a 6mm, 0.86g ball bearing at 45 m/s).

ITEM

Clear Safety Glasses (Java)

PRESCRIPTION PACK

1. Take the pack to your local optician (It includes everything you need)
2. Choose your frame (16 styles to pick from)
3. Your optician will order them and tell you when they are ready

ITEM

Bollé All Inclusive Prescription Pack

SAFETY GOGGLE

Indirect vent medium impact liquid splash economy safety goggles.

ITEM

Safety Goggle

EYE PROTECTION / FACE PROTECTION

EYE WASH

Used to totally irrigate the eye in the event of an emergency.

ITEM

Emergency Eye Wash (500ml)

FACE PROTECTION

P2V FOLD FLAT VALVED MASK

- Lightweight - 20g
- Multi layered filter medium combining electrostatic charge
- Ergonomically shaped for comfort and ease of use
- Adjustable head straps to provide individual fit
- Adjustable nose clip to ensure good seal around nose
- Colour coded for ease of identification
- Conforms to the European approved standard EN149:2001+A1:2009
- Non-allergenic
- Exhalation Valve added for easier breathing

EN149:2001+A1:2009 FFP2 (NR) provides a protection factor of 10 x A.P.F. (Assigned Protection Factor) and 12 x N.P.F. (Nominal Protection Factor).

ITEM

Respir P2V Fold Flat Valved Mask (Pack of 10)

P3V FOLD FLAT VALVED MASK

- Lightweight -21g
- Multi layered filter medium combining electrostatic charge
- Ergonomically shaped for comfort and ease of use
- Adjustable head straps to provide individual fit
- Adjustable nose clip to ensure good seal around nose
- Colour coded for ease of identification
- Conforms to the European approved standard EN149:2001+A1:2009
- Non-allergenic
- Exhalation Valve added for easier breathing

EN149:2001+A1:2009 FFP3 (NR) a protection factor of 20 x A.P.F. (Assigned Protection Factor) and 50 x N.P.F. (Nominal Protection Factor).

ITEM

Respir P3V Fold Flat Valved Mask (Pack of 10)

HALF MASK RESPIRATOR

The 3M™ Disposable Gas and Vapour Respirator 6941 is a valved mask complete with 2 x FFA1P2 R D filters. Typical applications include spraying non-isocyanate based paints and certain adhesives, coatings and sealers. Also for Degreasing and Mixing paint (where there is insufficient ventilation) applications where there is a risk of inhaling solvent vapours. The maintenance free mask can last up to 40 hours of use, as long as it is kept in a sealed, airless container when not in use (ie. the resealable bag it comes in).

ITEM

3M 6941 FFP2 Half Mask Respirator

HALF MASK RESPIRATOR

Get effective, easy-to-use and fully-assembled breathing protection with 3M™ Maintenance Free Half Mask Respirator 4251+, with a newly enhanced valve assembly which helps to reduce exhalation breathing resistance for improved breathing comfort. Our respirator has a textured face seal that's soft, non-allergenic and silicone free, and provides FFA1P2 R D protection against a range of organic gases and vapours, and combination particulate hazards. The lightweight, well-balanced design features a centrally-positioned exhalation valve that helps reduce heat and moisture build up, helping you to stay comfortable in hot and humid conditions. The integrated cartridge and filters are maintenance free; simply use until your change-out schedule indicates a replacement is needed or when the filters are full, and then discard. It will give you up to 40 hours of use life when stored in the resealable bag provided. An adjustable head cradle helps fit to a broad range of head shapes and sizes, and the neck straps are easy to fasten. The low-profile design won't hinder your peripheral vision, and the two large, bonded-carbon filters provide low breathing resistance. FFA1P2 R D protects against organic vapours, with a boiling point greater than 65 °C, up to 10 x Workplace Exposure Limit (WEL) or 1000 ppm (whichever is lower), and 10 x WEL for particulates.

ITEM

3M 4251 FFP2 Half Mask Respirator

FORCE 8 HALF MASK

One of the lightest, most well-balanced half face masks available in three different sizes.

- Typhoon Valve for Superior Low Breathing Resistance
- Fully Adjustable, 4-Point Suspension Harness
- Durable thermoplastic rubber for a superior fit
- Reflective strips create increased visibility
- Half mask conforms to EN140
- Accepts PressToCheck Filters

ITEM

Force 8 Half Mask - Small / Medium / Large

FORCE 10 TYPHOON FULL FACE MASK

The NEW Force™10 Typhoon™ is an extremely lightweight, easy to maintain full face mask with panoramic visor. With 3 available sizes (S,M,L) and the ability to fit PressToCheck™ filters the user can feel reassured of an excellent fit.

- Available in Small, Medium or Large for a perfect fit
- Compatible with PressToCheck™ Filters (Not included)
- Typhoon™ exhalation valve for reduced breathing resistance (Patent pending)
- Engineered for easy maintenance
- One of the lightest full face masks on the market

ITEM

Typhoon Force 10 Full Face Mask (Large)

PRESS TO CHECK FILTERS FOR FORCE 8 & FORCE 10 TYPHOON FACE MASKS

Filter Cartridges For The Force™8 Half Face Mask And Respiratory Protection Force™10 Typhoon™ Full Face Mask.

The unique design of the filter allows air to flow across the full area of the filter material. The large open area allows for lower breathing resistance and improved comfort. Low profile cover protects the enclosed pleated filter from moisture and foreign objects that could damage the pleats.

Resists clogging in very fine dust environments (passes Dolomite test). The bayonet fitting makes the filter easy to attach to the ForceTM 8 half mask and the ForceTM 10 full face mask. The filter features a built in inhalation valve making the respirator easier to maintain. PressToCheck filters facilitate instant and accurate checking of the face fit, without affecting the seal of the mask to the face. Lightweight, easy to wear and available as dust or dust/gas combination.

ITEM

PressToCheckTM P3 (F-4003) Solid + Liquid Particles (Greater Capacity)

PressToCheckTM A2P3 (F-4123) Organic Vapours + Gases with boiling points greater than 650 C Solid + Liquid Particle

PressToCheckTM ABEK1P3 (F-4713) Organic / Inorganic/Acidic Ammonia Vapours and Gases plus Solid and Liquid Particulates

HALF MASK (MEDIUM)

- Economical, low-maintenance, simple to handle and extremely lightweight reusable half face respirator
- Head harness cradle suspension is designed for a comfortable fit
- Low profile design minimises interference with field of view
- Lightweight elastomeric material for comfort during long work shifts
- The 3M™ 6000 Series Reusable Half Masks are economical, low-maintenance and lightweight

ITEM

3M 6200M Half Mask (Medium)

FILTER RETAINER

Used to keep the 5911, 5925 and 5935 filters in place at the front of the respirator. Can be used with 3M 5000 Series filters to add particulate protection to the gas and vapour filters.

ITEM

3M 501 Filter Retainer (Pair)

ITEM

PressToCheckTM P3 (F-4003) Solid + Liquid Particles (Greater Capacity)

PressToCheckTM A2P3 (F-4123) Organic Vapours + Gases with boiling points greater than 650 C Solid + Liquid Particle

PressToCheckTM ABEK1P3 (F-4713) Organic / Inorganic/Acidic Ammonia Vapours and Gases plus Solid and Liquid Particulates

FACE PROTECTION

DRAGER X-PLORE 8500 POWERED AIR PURIFYING RESPIRATOR - BUILD YOUR OWN KIT

In this package, you will receive The Drager X-plore 8500 Powered Air Respirator Kit, which consists of:

- An X-plore 8500 blower unit.
- A premium short hood in large/XL size.
- A long-lasting battery, a standard charger.
- A standard hose, a decontamination belt
- A PR SL filter.

We put this together for those looking to build their complete kit or replace parts of their current equipment.

The X-plore 8500 blower unit is an air respirator that runs on electricity. It is lightweight and can be easily carried around using a belt. The kit can be combined with a decontamination belt designed to withstand dust and water jets from any direction. The unit is protected from ingress to IP65 and is equipped with rubber protectors that make it suitable for heavy-duty applications.

The plug-and-go filter system on the 8500 powered air unit, allows the user to simply plug and exchange the relevant filter for their application. We have the PR SL Filter in stock but if you require a different level of protection visit our filters here.

KEY FEATURES

- All items in this bundle are in stock and ready for immediate dispatch.
- Mix and match items to build your perfect solution.
- ATEX Rated versions are also available.

ITEM

Drager X-plore 8500 Powered Air Purifying Respirator Kit

3M 6000 SERIES LOW MAINTENANCE FACE PIECE

Soft, lightweight face piece with centrally mounted exhalation valve to help keep the mask cool and comfortable to wear. Four point adjustable strap for a comfortable and secure fit. Side mounting design of the filters ensures an uninterrupted field of vision. Easy and quick to change. No costly maintenance or spare parts to purchase. Mask conforms to: EN140. Filters supplied separately.

ITEM

3M™ 6200M Medium Face Piece

3M™ 6300L Large Face Piece

3M 6055-A2 GAS AND VAPOUR CARTRIDGES/FILTERS

For use with 3M Half and Full Face Masks.

ITEM

6055-A2 Gas and Vapour Cartridges/Filters - Pack of 2

FACE PROTECTION / GLOVES

3M 2138-P3 PARTICULATE FILTERS + NUISANCE LEVEL ORGANIC VAPOUR AND GAS (PAIR)

For use with 3M Half and Full Face Masks.

ITEM

3M 2138-P3 Particulate Filters - Pair

POWDER FREE NITRILE GLOVE

- Ideal for latex allergy sufferers – 100% LATEX FREE.
- Offers the user excellent protection for light general use, protects hand against contamination, dirt and potential irritants in low risk situations.
- Conforms to AQL 4.0, CE marked for Minimal Risk, in compliance with BS EN 420.

ARDANT™-XF

Lightweight ISO Cut F glove with premium microfoam palm coating and RTC™ reinforcement. Proprietary 5 yarn blended liner provides maximum ISO Cut F protection whilst remaining soft and comfortable over extended usages. It contains specialist conducive materials to prevent any static discharge, prevent sparks in flammable or explosive areas. Extremely hard wearing premium microfoam coating provides excellent dexterity and excellent grip in dry, wet or oily applications. An additive has been added to the coating to provide full touch screen functionality. RTC™ reinforces the glove in an inherently weak area and can increase the life of the glove by 30%. Tested to EN407:2020 to provide contact heat protection up to 100°C. Packed individually in fully and easily recyclable eco-vend paper wrap, removing single use plastic packaging per pair

- Cut resistant.
- High dexterity.
- Breathable.
- Oil Grip.
- Steel core.
- Micro Foam.
- RTC™.

DOUBLE DIP GLOVE

Durable rubber latex glove suitable for a wide range of applications. Double dipped for extra durability giving good protection against a range of chemicals, fats and oils. Slip resistant pattern offers enhanced grip on wet or dry items. Cotton flock lining absorbs moisture and enhances user comfort.

ITEM

Double Dip Glove (Large)
Double Dip Glove (X-Large)

FLEXTRIL™ 101 NITRILE CHEMICAL GLOVE

- HIGH CHEMICAL PROTECTION & RELIABLE CUT RESISTANCE - Tested to 18 different chemicals, the nitrile barrier protects your hands acids, solvents, irritants, and other potentially hazardous materials. The chemical permeation data is readily accessible by scanning the QR code on the glove or the data sheets.
- ENHANCED GRIP PERFORMANCE - Coated with the Honeywell Super Grip technology (SGT) Flextril offers enhanced grip performance in wet and dry environments helping increase productivity and efficiency by reducing the effort needed to hold and handle tools, minimizing hand fatigue.
- GREAT DEXTERITY & SUPERIOR COMFORT - Ergonomic design delivers high-performance comfortable hand support where perspiration is no longer a problem with Honeywell Moisture Dispersion Technology.

ITEM

FLEXTRIL™ 101 Nitrile Chemical Glove

SHOWA S-TEX KV3 LATEX-COATED CUT-RESISTANT GLOVES

- Flexible and durable safety gloves.
- Latex-coated palms with a rough texture for excellent grip in wet and dry conditions.
- Hagane Coil liner reinforced with aramid fibres to give high-level cut resistance.
- Excellent resistance to tears and punctures.
- Good resistance to abrasion.
- Backs of hands are uncoated to aid breathability and reduce perspiration.
- Protection extends over wrists.
- Seamless liner prevents irritation to give great working comfort.
- Length: 215-285mm

ITEM

SHOWA S-TEX KV3 Latex-Coated Cut-Resistant Gloves

BLUE DISPOSABLE NITRILE GLOVES

- Flexible and tough Nitrile material offers great resistance to tearing, punctures and oil-based chemicals.
- Ideal for use in a variety of environments including food prep, medical, automotive, industrial and more.
- Beaded cuff for a comfortable fit.
- AQL 1.5 medical grade.
- Latex free to protect those with latex allergies.

ITEM

Blue Disposable Nitrile Gloves - Box of 100

BLACK DISPOSABLE NITRILE GLOVES

- Polyco Bodyguards GL897 black nitrile powder free disposable gloves.
- Black synthetic rubber offering better puncture and abrasion resistance than natural rubber or vinyl.
- Rolled cuff for additional strength and prevention of liquid roll back.
- Soft elastic material feels cooler and is more comfortable and flexible to wear.
- CE Marked.

ITEM

Blue Disposable Nitrile Gloves s - Box of 100

LATEX DISPOSABLE GLOVES

- AQL 1.5 Medical-grade latex gloves.
- Beaded cuff prevents drips and increases Strength - no more ripping or tearing.
- Powdered or non-powdered at request.
- Smooth and great dexterity.

ITEM

Latex Disposable Gloves - Box of 100

VINYL DISPOSABLE GLOVES

- AQL 1.5
- Superb protection against punctures and general wear and tear.
- Powdered or non-powdered at request.
- Latex free.

ITEM

Vinyl Disposable Gloves - Box of 100

DERMATRIL GLOVE

Disposable chemical protective nitrile gloves. Category 3 products (EN 374). Dermatril® P 743 is a 28 cm long disposable glove according to EN374 with a thickness of 0.2 mm. The chemical as well as the mechanical resistance is higher compared to Dermatril® 740. Therefore, this glove can be used for a longer period and offers protection against a larger chemical spectrum. Dermatril® P 743 glove is approved for food handling and processing according to EU 1935/2004.

ITEM

Dermatril Glove

CAMAPUR COMFORT 627+

- Dynema Cut Resistance Gloves.
- Processing of synthetic material profiles.
- Assembly works with medium cut risks, metal sheet processing.
- Fine touch sure grip when handling slightly oily parts, for example.
- Firm elasticised wrist protection.
- Moisture-repellent, good wearing comfort.
- Washable.
- Available in many sizes.
- Marked according to size by different colours on the wristband.
- Dark grey and less sensitive to soiling.

ITEM

Camapur Comfort 627+

STOCBL WHITE BLEACHED STOCKINETTE COTTON GLOVES

These high-quality bleached stockinette gloves are designed for minimal risk applications, such as very light handling. Suitable for use as a glove liner as well as worn alone, they make lightweight and comfortable hand protection.

- Designed with an open cuff for easy donning.
- Fourchette style for optimal comfort.
- Protects against a range of minimal risk hazards.

ITEM

STOCBL White Bleached Stockinette Cotton Gloves

TYVEK COVERALLS

These DuPont chemical coveralls use Tyvek 500 Xpert fabric to provide effective protection against asbestos, biological hazards, water-based chemical liquid splashes, and both pharmaceutical and radioactive particulates. Tyvek fabric offers great breathability, allowing perspiration to escape while still providing a strong barrier against hazards. The ergonomic design allows wearers to move without feeling restricted, and features an innovative sleeve design that prevents sleeves from riding up even when working overhead. The hood has been designed to closely fit the contours of the face, while a larger zip pull makes it easier to put on and take off while wearing gloves.

CS500 COVERALL

Standard: PPE Category III – Type 5B + 6B

Material: PP spunbond with microporous film laminate.

- 3-part hood.
- Elasticated hood for optimum fit.
- Elasticated cuffs, ankles and waist.
- 2-way zip fastener.
- Two-layer zip cover with 3-point adhesive strips.
- Bonded (not sewn in) elasticated back for increased protection.
- Optimised design for improved comfort when worn.
- Thumb loops.
- Antistatic finish.

POLISHING
COMPOUNDS

POLISHING
COMPOUNDS

PROFILE 100 EXTRA PASTE COMPOUND

Profile 100 EXTRA Heavy Cut Paste Compound - commonly dubbed "liquid sandpaper" - is a coarse, aggressive, water-based compounding paste for tough resins and gelcoats. It removes P600 dry sanding marks from most substrates, leaving a relatively low gloss finish. Ideal for plugs and moulds. Profile 100 Extra is often used in the first stage of a two-step polishing process when high gloss is required.

- Aggressive compounding paste for tough resins and gelcoats.
- Leaves a low gloss finish.
- Ideal for plugs and moulds.
- Use on Polyester / Vinylester / Epoxy resins or gelcoats.
- No Silicones.

ITEM

3kg Pot

100g Tube

PROFILE 350 PREMIUM LIQUID COMPOUND

Profile 350 PREMIUM Liquid GRP Fast Medium Cut Liquid Compound is a high performance, water-based cutting compound which removes P1500 or finer sanding marks from production gel coats and painted finishes, and is the perfect solution for restoring oxidised and weathered gel coat surfaces. Great on dark colours, Profile 350 Premium Liquid delivers a high gloss finish and is used as a one step product on white gel coats and as the first stage of a two part compounding process where higher gloss and lower swirl is required.

- Rapidly eliminates P1200 scratches from GRP.
- Very effective on dark GRP surfaces to restore colour.
- Can also be used on painted surfaces.
- Use on Paint / Aerospace paints or lacquers and Polyester / Vinylester / Epoxy resins or gelcoats.
- No Silicones.

ITEM

1L Bottle

1 US Gallon

PROFILE 200 SELECT LIQUID COMPOUND

Profile 200 SELECT Coarse Cut Liquid Compound eliminates sanding marks and heavy defects from production and tooling gelcoat surfaces. It can be used as a one-step process from P800 to P1000 for fast polishing of white production gelcoats in areas where a mirror finish is not required. Used with a G Mop Twisted Wool Compounding Pad, Profile 200 Select quickly removes P800 or finer sanding marks from tooling or production gel coats in a one-step process. Performs best at high speed (2000 - 3500rpm)

- Eliminates sanding marks and heavy defects from production and tooling gelcoat surfaces.
- Can be a one-step product on white gelcoats.
- Use on Polyester / Vinylester / Epoxy resins or gelcoats.
- No Silicones.

ITEM

1L Bottle

1 US Gallon

PROFILE 400 ADVANCED PLUS LIQUID COMPOUND

Profile 400 Advanced Plus Fast Medium Liquid Compound eliminates P1500 sanding marks and defects from paint, lacquer, acrylic, plexiglass and gelcoat surfaces, leaving a high gloss. Profile 400 Advanced Plus offers the highest level of cut and gloss on painted surfaces and wood lacquers in the range and is likely to require a second finishing step - a much appreciated time-saving in high volume operations. It can be used as a high gloss one-step process on white production gelcoats if sanded to P1200 or P1500.

- Rapidly eliminates P1500 sanding marks and defects from paint, lacquer, acrylic, plexiglass and gelcoat surfaces.
- Can be used as a high gloss one-step process on white production gelcoats if sanded to P1200 or P1500.
- Can also be used on painted surfaces.
- Use on Paint / Aerospace paints or lacquers and Polyester / Vinylester / Epoxy resins or gelcoats.
- No Silicones.

ITEM

1L Bottle

1 US Gallon

PROFILE 700 FINISH LIGHT CUT POLISH AND SWIRL REMOVER

Profile 700 FINISH Light Cut Polish and Swirl Remover eliminates minor defects and swirls from paint, lacquer and gelcoat surfaces, leaving a mirror shine finish. Often used as a second step after compounding, Profile 700 is a very fine finishing compound designed to remove any light swirl marks and holograms from high quality painted lacquered and gel coat surfaces to leave the ultimate high gloss finish. It will not scratch and is particularly good on soft coatings which are susceptible to swirl marks.

- Enhanced workability.
- Very easy wipe off.
- Use on Paint / Aerospace paints or lacquers and Polyester / Vinylester / Epoxy resins or gelcoats.
- Now VOC-free.
- No Silicones.

ITEM

100ml Tube

PROFILE UV WAX HAND APPLICATION

Profile UV Wax for Hand Application is a thick liquid wax that incorporates special UV absorbers to give up to 3 months protection to gel coats and paints exposed to external weathering. This wax will give a high gloss, long-lasting finish and protection against rain and salt water on most surfaces, whilst the UV absorbers protect against exposure to sunlight.

- Provides a super high gloss finish and ultimate protection, when used after Profile compounds / polishes.
- Thick wax containing UV inhibitors.
- Provides up to 3 months protection and gloss on paint, lacquer and gelcoat surfaces.
- Contains Non-Volatile SiliconesIt is suitable for use on boats, caravans, trains and planes.

ITEM

1L Bottle

PROFILE POLYMER UV WAX MACHINE APPLICATION

Profile Polymer UV Wax for Machine Application is an easily applied wax containing UV inhibitors that provides up to 3 months protection and gloss on paint, lacquer and gelcoat surfaces. This performance polymeric liquid wax has been specially developed for ultimate gloss and water resistance, whilst protecting against UV degradation. This wax is ideal for working on larger areas thanks to its highly lubricated formula optimised for machine polishing. It can also be sprayed onto surfaces using either a small hand spray bottle or pump spray system.

- Provides a super high gloss finish and ultimate protection, when used after Profile compounds / polishes.
- Easily applied wax containing UV inhibitors.
- Provides up to 3 months protection and gloss on paint, lacquer and gelcoat surfaces.
- Contains Non-Volatile Silicones

1 US Gallon

FARÉCLA CLEAN AND PROTECT

Clean and Protect is an easy to use "wipe on, wipe off" product.

POWERFUL CLEANER: Rapidly removes compound and masking tape residues, fingerprints and dust – but also harsher contaminants such as birdlime – from paint, glass, rubber and plastics.

GLOSS ENHANCER: Creates a friction-free layer enhancing clarity and the depth of glossy surfaces.

PROTECTIVE BARRIER: Adds a silicone-free layer of protection to the surface which provides long lasting water beading and easy-clean properties.

- No VOC. Pleasant smell.
- Streak-free; No stains. No residue – even on textured plastic trims.
- Friction-free, high gloss finish.
- Long lasting protection.
- Use on paints, gelcoats, glass and trims.
- Bodyshop Safe (No Silicones).

ITEM

1L Bottle

G3 PRO ALL-IN-ONE POLISH

Removes swirls, holograms, minor defects and leaves a high gloss shine. Highly versatile, the high spec compounding technology in this polish removes medium and minor defects - scratches, swirls, holograms, oxidation, watermarks and more - on many different surfaces and coatings including paint, lacquer, chrome, plastic lenses and glass, whilst leaving a high shine finish and a base layer of water repellency prior to final sealing or waxing.

- Uses a blend of engineered abrasives to remove oxidation and other defects that cause dulling.
- Leaves a hydrophobic layer prior to final protection.
- Use on paint, lacquer, chrome, plastic, glass and more.
- Silicone Free (Bodyshop Safe).

ITEM

500ml Bottle

G3 PRO SURFACE SANITISER

G3 Pro Surface Sanitiser is an anti-viral spray-on cleaner for use on hard/non-porous surfaces and soft/non-porous surfaces. Fights against Coronaviruses EN 14476:2013 + A2:2019 ANNEX A, certified by an independent test laboratory. Its antimicrobial action against viruses, bacteria and fungi - making G3 Pro Surface Sanitiser an invaluable part of the cleaning process, especially for (but is not limited to) key vehicle touchpoints such as door handles, steering wheel, dashboard, gear stick, hand brake, instrument panel, seatbelts and fuel cap.

- Fights Against Coronaviruses - EN 14476:2013
- Can be used on porous and non-porous surfaces.
- Free from Ethanol and Isopropanol.

ITEM

500ml Bottle

5L Container

FARÉCLA FOAMS & PADS

PROFILE PREMIUM PASTE COARSE CUT COMPOUND

Profile Premium Paste Compound is a medium aggressive, water-based cutting compound capable of removing up to P800 sanding marks as well as delivering a high gloss finish. With added lubrication, it is also resistant to drying out in hot conditions and when working on large surfaces. Often used as the sole compound on white gel coats, it can be applied in the first stage of a two part compounding process where higher gloss and lower swirl is required by following on with Profile 700 Finish.

- Versatile: Engineered for both gel coats and painted finishes, removing up to P800 sanding marks and leaving a high gloss finish.
- High Quality Abrasive: No Haze, No Dieback.
- Water-Based: Cleans up easily and extends pad life.

ITEM

3Kg Pot

G MOP ANGLED COMPOUNDING FOAM

The G Mop Yellow Angled Compounding Foam pad provides an improved cut and gloss of our standard yellow pads, with enhanced handling over our flexible yellow pads. The angled design offers excellent handling plus greater visibility and control, especially at panel edges and around awkward areas such as door handles and mirrors. The combination of pore size and open cell structure provides enhanced cut, a lower operating temperature and minimal product throw-off.

- Fine to High Cut.
- Excellent visibility and control.
- Flexible.
- Excellent Properties for Cut & Gloss.
- Hook & Loop System.
- Recommended: use with a G Mop Flexible Back Plate.

ITEM

Pack of 2 foams (Yellow 150mm/6" range)

G MOP ANGLED FINISHING FOAM

The G Mop Angled Finishing Foam uses a new grade of foam which is slightly firmer than the grade used in previous Farécla Finishing Foams. This foam offers a significant uplift in handling, speed of hologram & swirl removal, and depth of gloss achieved, without compromising on flexibility (especially when used with a G Mop Flexible Backplate). It also generates less friction with the panel, further enhancing the handling properties and perfectly complements the new formulation of G360 Super Fast Finish.

- Fine to Ultra Fine Cut.
- Excellent visibility and control.
- Flexible.
- Excellent Properties for Gloss.
- Hook & Loop System.
- Recommended: use with a G Mop Flexible Back Pl.

G SCUFF FOR PAINT PREPARATION

G Scuff Paint Preparation is used for preparing a surface before painting to provide an even key for optimum paint adhesion. G Scuff eliminates rogue scratches so paint can be sprayed on more effectively, whilst cleaning away any wax and grime ensuring surface is left as clean as possible before degreasing. Non-hazardous and non-irritant with a pleasant odour.

- Water-Based.
- Easy Clean Up.
- Non-Greasy.

ITEM

500ml Bottle

ITEM

Pack of 2 foams - Black 150mm/6" (angled)

G MOP SUPER HIGH CUT PAD

The G Mop Super High Cut Pad, developed in conjunction with G360 Super Fast Compound, eliminates P1500 sanding marks and removes the need for costly P3000 sanding discs. With a faster cut, the engineered fibre pad requires half the compound habitually used, and only light pressure resulting in less fatigue.

- Super High Cut.
- Extremely rapid cut from P1500 when paired with G360 Super Fast Compound.
- Hybrid of foam and engineered fibres keep panels cool and reduces drag improving ease of use.
- Superb handling and flexibility, glides over contours.
- Excellent durability.
- Hook & Loop System.
- Recommended: use with a G Mop Flexible Back Plate.

ITEM

Pack of 1 foam - 150mm/6"

G MOP FINISHING FOAMS (BLACK)

The G Mop Finishing Foam range has been specially designed for their excellent high gloss properties, minimal throw off (mess) and a low operating temperature when used with Farécla's range of Finishing Compounds and Waxes. Available in 3 sizes and a variety of styles to suit a wide array of polishing jobs, recent additions to the Finishing range have been optimised for greater visibility and control.

- Fine to Ultra Fine Cut.
- Soft foam gives a light cut, high gloss finish.
- Superb flexibility, glides easily over surface contours.
- Hook & Loop System.
- Recommended: use with a G Mop Flexible Back Plate.

ITEM

Pack of 5 foams - 75mm/3" Black

Pack of 2 foams - 150mm/6" Black

G MOP HIGH CUT FOAMS

The G Mop High Cut Foam provides a high cut and rapid finish and is ideal for working larger areas. Superb handling and flexibility, the High Cut foam glides easily over surface contours when paired with a G Mop Flexible Back Plate. Open cell structure for dry-use compounds.

- High cut and rapid, superb gloss.
- Open cell structure for 'dry use'.
- Excellent durability.
- Hook & Loop System.
- Recommended: use with a G Mop Flexible Back Plate.

ITEM

Pack of 1 foam - 200mm/8" White

Pack of 1 foam - 150mm/6" White

Pack of 3 foams - 75mm/3" Red

G MOP PREMIUM COMPOUNDING FOAM

Extensive research, development and testing has resulted in a new grade of foam joining the Farécla G Mop range of compounding foams - introducing the G Mop Premium Angled Compounding Foam. This grade of foam delivered the best results for cut, gloss and handling - exceeding the already high standard of our existing G Mop 75 mm / 3" Range mini applicators.

- Excellent Properties for Cut & Gloss.
- Highly Durable.
- Open Cell Structure.
- Hook & Loop System.

ITEM

Pack of 3 foams - 75mm/3" Purple

G MOP COMPOUNDING FOAMS

The G Mop Compounding Foam range has been specially designed for their excellent cut and gloss properties, minimal throw off (mess) and a low operating temperature when used with Farécla's range of Compounds and Polishes. Available in 3 sizes and a variety of styles to suit a wide array of polishing jobs, recent additions to the Compounding range have been optimised for greater visibility and control.

- Fine to High Cut.
- Excellent cut and gloss.
- Superb flexibility, glides easily over surface contours.
- Can be used with wet or dry use compounds.
- Hook & Loop System.
- Recommended: use with a G Mop Flexible Back Plate.

ITEM

Pack of 5 foams - 75mm/3" Yellow

Pack of 2 foams - 150mm/6" Yellow

G MOP PREMIUM FINISHING FOAM

Extensive research, development and testing has resulted in a new grade of foam joining the Farécla G Mop range of compounding foams - introducing the G Mop Premium Finishing Foam

- Fine to Ultra Fine Cut.
- Excellent Properties for Gloss.
- Hook & Loop System.

ITEM

Pack of 3 foams - 75mm/3" Black

G MOP WAFFLE COMPOUNDING FOAM

The G Mop Waffle Compounding Foam is a new soft-backed, waffle-faced compounding foam. This new pad (along with its Waffled Finishing Foam counterpart) performed extremely well in end user field trials, and was praised for offering better all-round handling, notably greater flexibility and significantly less drag compared to their harder dished predecessor - especially when paired with a G Mop Flexible Backplate. The new design offers greater visibility and control, especially at panel edges.

- Fine to High Cut.
- Excellent cut and gloss.
- Superb flexibility, glides easily over surface contours.
- Can be used with wet or dry use compounds.
- Hook & Loop System.
- Recommended: use with a G Mop Flexible Back Plate.

ITEM

Pack of 1 foam - 200mm/8" Yellow

G MOP WAFFLE FINISHING FOAM

The G Mop Waffle Finishing Foam is a new soft-backed, waffle-faced compounding foam. This new pad (along with its Waffled Compounding Foam counterpart) performed extremely well in end user field trials, and was praised for offering better all-round handling, notably greater flexibility and significantly less drag compared to their harder dished predecessor - especially when paired with a G Mop Flexible Backplate. The new design offers greater visibility and control, especially at panel edges.

- Fine to Ultra Fine Cut.
- Soft foam gives a light cut, high gloss finish.
- Superb flexibility, glides easily over surface contours.
- Hook & Loop System.
- Recommended: use with a G Mop Flexible Back Plate.

ITEM

Pack of 1 foam - 200mm/8" Yellow

G MOP TWISTED WOOL COMPOUNDING PAD

The G Mop Twisted Wool Compounding Pad is a 4 ply, 100% wool applicator. It has the highest cut of any polishing applicator. Double sided pads are ideal for when polishing different coloured surfaces or using different products and you do not want contamination. Features hook and loop system on the single sided pad.

- Super High Cut.
- 100% pure, 4 ply, twisted wool.
- Hook & Loop System (Singed Sided).
- Single sided - use with a G Mop Flexible Back Plate.
- Double sided - use with a G Mop Bolt Adaptor.

ITEM

Pack of 1 foam - 200mm/8" Single Sided

Pack of 1 foam - 200mm/8" Double Sided

G MOP LAMBS WOOL PAD

The G Mop Lambs Wool Pad is constructed using natural sheepskin and a velour backing. It gives a high cut and great finish, depending on the product used. G Mop 3" Lambs Wool Pads are ideal for small and spot repair areas. Features hook and loop system.

- Fine to High Cut.
- For dry use compounds.
- Good cut, finer finish than Twisted Wool Pads leaving fewer swirl marks.
- Hook & Loop System.
- Recommended: use with a G Mop Flexible Back Plate.

ITEM

Pack of 1 foam - 200mm/8"

Pack of 1 foam - 150mm/6"

Pack of 5 foams - 75mm/3"

G MOP FLEXIBLE BACK PLATE

The G Mop Flexible Back Plate adds additional flexibility to Farécla's range of compounding and finishing foams - allowing for improved handling performance, increased performance and increased pad life. The added flexibility allows applicators to easily ride swages and mitigates the risk of swage burn, especially in complicated areas.

- Increases Flexiblity of pads - perfect for reaching difficult areas.
- Optimises the performance of the G Mop Angled Compounding and Finishing Foams and Lambs Wool Pads.
- Hook & Loop Pad Attachment System.

ITEM

Pack of 1 - 14mm thread

Pack of 1 - 5/8" thread

Pack of 1 - 16mm thread

G MOP COMPOUNDING HEAD

The G Mop Yellow Compound Head is an updated version of the long-favoured Standard G Mop Compounding Head (SGM). Retaining the design of the original SGM, but modernising the grade of foam used in the applicator has resulted in an applicator that delivers excellent cut and gloss. The open cell structure can still be used with wet use compounds, such as G3 Paste as the smaller pore size means there is hardly any product throw off.

- Applies directly to your polisher.
- Open cell for lower running temperature.
- Small pore size means minimal splatter.
- Outstanding value.
- Fixed Head.

ITEM

Pack of 1 - 150mm/6" (14mm thread) Yellow

G MOP FINISHING HEAD

The G Mop Finishing Head has a soft, open cell structure to protect delicate paintwork, while removing swirls and leaving a deep gloss finish. Ideal as a follow on after compounding with the G Mop Compounding Head.

- Applies directly to your polisher.
- Open cell for lower running temperature.
- Small pore size means minimal splatter.
- Outstanding value.
- Fixed Head.

ITEM

Pack of 1 - 150mm/6" (14mm thread) Black

G MOP STANDARD COMPOUNDING HEAD

G Mop Standard Compounding Head is a general purpose foam applicator pad with a good cut and gloss. The original Farécla foam applicator, it was primarily designed for use with wet-use paste cutting compounds. The built-in 6" backing plate means there is no need for a separate back plate.

- Fixed head - applies directly to your polisher.
- Our thickest ever foam applicator - great longevity and durability.
- Closed cell structure.

ITEM

Pack of 1 - 150mm/6" (14mm thread)

Pack of 1 - 150mm/6" (5/8" thread)

G MOP ADVANCED COMPOUNDING FOAM

G Mop Advanced Compounding Pad is a 6" general use foam applicator pad. Dual layer foam for faster cutting action. Ideal for use with Farécla's range of classic automotive compounds.

- General Foam Applicator Pad.
- Ideal for use with classic G3 compounds.
- Durable Construction.

ITEM

Pack of 1 - 150mm/6"

G MOP ADVANCED POLISHING FOAM

G Mop Advanced Polishing Foam is a multi-layered 6" applicator pad with profiles in the foam to allow air to flow over the surface area, providing a high gloss finish in a short period. Excellent properties for fine cutting and gloss enhancement - ideal for use with Farécla G10.

- Excellent for Fine Cut & Gloss Enhancement.
- Designed with air flow in mind.
- Developed for use with Farécla G10.

ITEM

Pack of 1 - 150mm/6"

G MOP ADVANCED BACK PLATE

The G Mop Advanced Back Plate is a 6" back plate designed for use with the Advanced G Mop Applicator Range (AGM-CF and AGM-PF). Available with 14mm and 5/8" threads.

- For optimum performance of G Mop Advanced Compounding Foam and Polishing Foam applicators.

ITEM

Pack of 1 - 14mm thread

Pack of 1 - 5/8" thread

G MOP YELLOW INTERFACE BACK PLATE

The Farécla G Mop Back Plate with Yellow Interface for 6" Pads features a thick yellow polyurethane interface to provide excellent control and improved handling. Perfectly suited to all Farécla 6" G Mop applicator pads. Available in 2 thread sizes to suit your preferred machine.

- Improved Pad Control & Handling.
- Available in 2 thread sizes.
- Hook & Loop Pad Attachment System.

ITEM

Pack of 1 - 14mm thread

Pack of 1 - 5/8" thread

G MOP COMPOUNDING FOAM

The G Mop White Compounding Foam is a premium European grade foam. It has a closed cell structure which means there is minimal throw off (mess) and can be used with water for wet use. Excellent properties for cut and gloss. Features hook and loop system.

- High Cut.
- Wet Use Compounding Applicator Pad.
- Good cut and gloss.
- Excellent value for money.
- Hook & Loop System.
- Recommended: use with a G Mop Flexible Back Plate.

G3 PRO APPLICATOR WAFFLE PADS

G3 Pro Applicator Waffle Pads allow for easy application of G3 Pro 'Restore' products and waxes for the ultimate finish. The applicator pads reduce the application effort needed and further enhances the G3 Pro product effectiveness - their unique waffled surface minimises wastage and ensures the ultimate finish. Use the White Cutting Pad with the 'Restore' range to quickly remove defects. Use the Black Finishing Pad with waxes for easy application and to restore gloss levels of restored surfaces.

- Reduces application effort.
- Enhances G3 Pro product effectiveness.
- The unique surface minimises wastage and ensures the ultimate finish is achieved in the shortest time.

G PLUS CORDLESS ROTARY POLISHING MACHINE LAUNCH KIT

Cordless Rotary Polisher with 2 Batteries, Twin Bay Charger

- M14 Spindle.
- 700 - 1800 RPM [6 Speed Dial].
- Low Vibrations.
- Lightweight (1.8 kg).
- 18V (DC) Platform.
- Free: G Mop Flexible Back Plate.
- 2 Year End User Warranty.

Kit contains:

- 1x G Plus Cordless Rotary Polishing Machine.
- 1x G Mop Flexible Back Plate for 150 mm / 6" Pads (14 mm Thread).
- 2x G Plus Rechargeable Li-Ion Battery.
- 1x G Plus 18V Twin Bay Battery Charger.

Complimented by Farécla's G360 Super Fast System and G Mop applicators:

- 1x G360 Super Fast Compound (100g).
- 1x G360 Super Fast Finish (100ml).
- 1x G Mop Angled Compounding Foam (Yellow - 150 mm / 6" Range)
- 1x G Mop Angled Finishing Foam (Black - 150 mm / 6" Range)

ITEM

G Plus Cordless Rotary Polishing Machine Launch Kit

G PLUS CORDLESS DUAL ACTION POLISHING MACHINE LAUNCH KIT

Cordless Dual Action Polisher with 2 Batteries, Twin Bay Charger

- 15 mm Orbit.
- 2000 - 5000 OPM [6 Speed Dial].
- Low Vibrations.
- Lightweight (1.98 kg).
- 18V (DC) Platform.
- Free: G3 Pro Detailing Pads.
- 2 Year End User Warranty.

Kit Contains:

- 1x G Plus Cordless Dual Action Polishing Machine.
- 2x G Plus Rechargeable Li-Ion Battery.
- 1x G Plus 18V Twin Bay Battery Charger.

Complimented by Farécla's G3 Pro Dual Action Compound and Polish:

- 1x G3 Pro D.A. Compound (500 ml)
- 1x G3 Pro D.A. Fine Polish (500 ml)

With FOC G3 Pro Detailing Pads:

- 1x G3 Pro Microfibre Cutting Pad
- 1x G3 Pro Foam Cutting Pad
- 1x G3 Pro Foam Polishing Pad

ITEM

G Plus Cordless Dual Action Polishing Machine Launch Kit

G PLUS MICROFIBRE FINISHING CLOTH

G Plus Finishing Cloths are ideal for quick cleaning and drying jobs. Its microfibre technology grips dust and small dirt particles, and the cloth's edgeless finish prevents damaging and scratches. Cloths can be washed and re-used up to 300 times. Cloth size is 400mm x 400mm.

- Low-lint, 400mm x 400mm microfibre cloth.
- Edgeless to avoid scratching.
- Can be machine washed up to 100 times.
- Very high absorbency: 7x its weight of water.

ITEM

Pack of 3 cloths

Box of 100 cloths

G PLUS AUTOPEN

The G Plus Autopen is a non-staining, non-toxic and weatherproof pen suitable for bodywork and glass. Write important messages and draw attention to defects when inspecting on bodywork, glass and other surfaces prior to polishing. The G Plus Autopen will wash off in the rain despite its ease of removal with a cloth.

- Once done, simply and effortless wipe off with a clean damp cloth.
- Ideal for job identification.
- Non-staining pen for bodywork and glass.
- Does not wash off in the rain, but does wipe off with a damp cloth.

ITEM

Single Pen - 5mm Nib - Yellow

BOOST MICROFIBRE CLOTH(S)

'made by boost' Microfibre Cloths are both edgeless and low lint making them ideal for a wide variety of tasks. They have an edgeless ultrasonic cut to prevent surface damage / scratching. Machine washable.

- Lifts dirt and dust off the surface.
- Machine washable.
- Low lint for a cleaner working environment.
- High basis weight.

ITEM

Box of 100 cloths - Blue

Box of 100 cloths - Grey

G PLUS SPURRING BRUSH

The G Plus Spurring Brush is designed for manually cleaning G Mop pads and foams - unclogging foam cells to ensure no drop in cut or gloss and avoiding residue, dried compound and other contaminants impairing your next job. The latest spec spurring brush is now inline with the iconic Farécla branding - with a yellow handle and black bristles which are slightly softer to promote even longer pad life.

- For quick and easy cleaning of pads when spun on a polishing machine.
- Avoids residue, dried compound and other contaminants impairing your next job.
- Unclogs foam cells to ensure no drop in cut or gloss.

ITEM

Single Brush - Yellow

G WIPES - POLISHING & DEGREASING WIPES

G Wipes are easily dispensed and disposable wipes, designed to save process time.

Degreasing Wipes are used to remove all debris before painting and are ideal for use with solvent and water-based degreasers, without scratching the surface.

Polishing Wipes are multi-purpose; ideal for removing debris, glaze and polish quickly and easily without scratching the surface.

- Saves Process Time.
- Easily Dispensable.
- Disposable.
- Non-snagging and low linting.
- Highly absorbent - holds up to 9 x its weight in water / solvents.
- Solvent resistant.

ITEM

Box of 100 polishing wipes

Box of 100 degreasing wipes

G PLUS PEN LIGHT

The G Plus Pen Light is a small, rechargeable and easy to carry penlight perfect for quick inspections in the workshop and bodyshop for identifying surface scratches, pinholes and swirl marks. The Cree LED is capable of outputting 350 Lumens with a high powered 90 m beam on its highest setting. Its durable anodised aluminium body houses a 3.7V 750mAh Rechargeable Li-Ion Battery that can be easily charged via a concealed USB-C port.

- 3.7V 750mAh Rechargeable Li-Ion Battery.
- Three Brightness Options - Up to 350 Lumens.
- High Powered, 90 m beam.
- 1.5 to 20 hour run time.
- USB C Chargeable (50cm Cable Included).
- IP66 (Water Resistant).

ITEM

Single torch - 3.7V 750mAh Rechargeable Li-Ion Battery

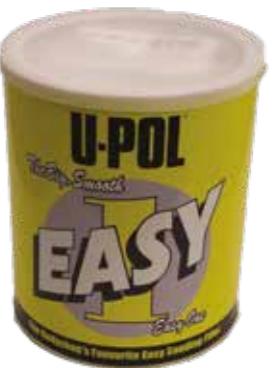

G PLUS CHECK LIGHT

The G Plus Check Light is the ideal polishing inspection companion for bodyshop professionals, detailers and car care enthusiasts: The powerful 5W CoB (Chip-on-Board) LED can be used for colour matching, inspecting swirls and holograms and illuminating areas for a thorough clean. Robust and IK07 impact resistant - this versatile check light can be easily positioned for the perfect working angle via the magnetic back panel, 180° folding base or the 360° swivel hook.

- 3.7V 2600mAh Rechargeable Li-Ion Battery.
- Two Brightness Options - Up to 500 Lumens.
- 95+ CRI (Colour Rendering Index).
- 3-4 hour run time with Battery Life Indicator.
- USB Chargeable (1M Cable Included + Wall Mountable Magnetic Charging Station).
- IP65 (Weather-Proof).

ITEM

Single light - 3.7V 2600mAh Rechargeable Li-Ion Battery

EASYONE BODY FILLER

Two-component polyester filler used for the filling of holes and imperfections.

ITEM

TAPES

DOUBLE SIDED TAPE	112
ELECTRICAL TAPE	112
FINE LINE TAPE	112
VINYL TAPE	112
MASKING TAPE	113
3M SCOTCH BLUE TAPE	113
PACKAGING TAPE	113
PTFE TAPE	114
REINFORCED TAPE	114
WATERPROOF CLOTH TAPE	114

DOUBLE SIDED TAPE

Double Sided tape is a heavy-duty tape with ultimate adhesion and maximum grip which secures, fastens and fixes. A superior quality tape that sticks to most materials except vinyl.

ITEM

Double Sided Tape 25mm x 50m
Double Sided Tape 50mm x 50m

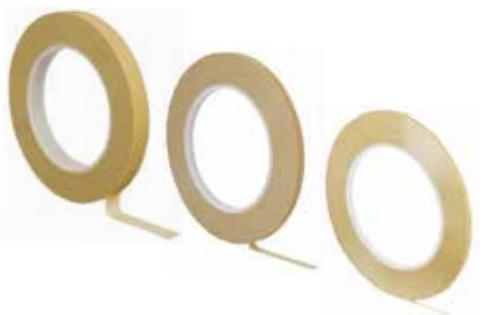

ELECTRICAL TAPE

Electrical tape (or insulating tape) is a type of pressure-sensitive tape used to insulate electrical wires and other materials that conduct electricity. It can be made of many plastics, but vinyl is most popular, as it stretches well and gives an effective and long lasting insulation.

ITEM

Electrical Tape Black 19mm x 20m (10 Pack)
Electrical Tape White 19mm x 20m (10 Pack)
Electrical Tape Blue 19mm x 20m (10 Pack)

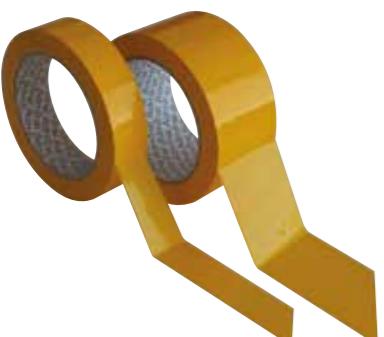

FINE LINE TAPE

3M™ Fine Line Tape 218 is a high-performance polypropylene plastic tape that has both a low profile and high adhesion for use in painting long straight lines and sweeping curves where a crisp, sharp paint line is desired. It is often used as a layout tape for high value multi-colour and custom painted graphics.

- Thin tape provides excellent colour line separation
- Proven excellent for painting long straight lines and smooth curves
- Resistant to most solvents and moisture

ITEM

3M 218 Fine Line Tape 3mm x 55m
3M 218 Fine Line Tape 6mm x 55m
3M 218 Fine Line Tape 12mm x 55m

VINYL TAPE

High-performance polypropylene plastic tape that has both a low profile and high adhesion for use in painting long straight lines.

ITEM

Yellow Vinyl Tape 25mm x 66m
Yellow Vinyl Tape 50mm x 66m

MASKING TAPE 120 °C BLUE LINE

A high-performing, waterproof and UV resistant masking tape for professional use in automotive, shipyard and building market. Withstands 120°C oven use for 60 minutes. Superior holding power and excellent solvent, water and UV resistance. Excellent paint line and residue-free removal with a removal time of 15 days indoors and 10 days outdoors.

- Waterproof and UV resistant
- 120°C oven use for 60 minutes
- Absolute residue free removal
- For indoor and outdoor applications

ITEM

Mirka Masking Tape 120°C Blue Line 24mm x 50m
Mirka Masking Tape 120°C Blue Line 48mm x 50m

MIRKA MASKING TAPE

Mirka masking tape is ideal for use in oven and dry cycles when the temperature does not exceed 80°C. Flexibility and good adhesion means it conforms to curves and contours and many surface types including the most common paints & lacquers leaving no adhesive residue.

- Support oven/dry cycles when temperature does not exceed 80°C.
- Conforms to contours, irregular surfaces and shapes.
- Compatible with most common paints and lacquers

ITEM

Mirka Masking Tape 25mm x 50m
Mirka Masking Tape 50mm x 50m

3M SCOTCH BLUE

Scotch-Blue™ Painter's Tape for Multi-Surfaces 2090 is a medium adhesion tape ideal for paint masking on multiple surfaces, including painted walls and trim, woodwork, glass and metal. It can be removed cleanly from the surface for up to 14 days even in direct sunlight.

ITEM

3M Scotch blue 2090 24mm x 50m
3M Scotch blue 2090 48mm x 50m

PACKAGING TAPE

3M™ 369 is a general purpose box sealing tape suitable for single strip closure of regular slotted containers (standard fibreboard boxes). This product performs well throughout all temperature typically encountered by packaged products in shipping and storage environments, including deepfreeze conditions.

- Good quality, general purpose box sealing tape
- Consistent and reliable performance in a wide range of environments and applications
- Ideal for all your package, envelope and box-sealing needs

ITEM

3M 369 Packaging Tape 48mm x 66m

PTFE TAPE

Used by plumbers and heating engineers to provide a watertight seal on threaded joints. This invaluable tape is an essential component when working on all types of pipework, helping to ensure that a watertight seal is achieved and maintained on all threaded joints. This effective tape is a must for every toolbox.

ITEM

PTFE Tape 12mm x 12m White (10 Pack)

REINFORCED TAPE

Reinforced Crossweave Tape has a very high-tensile strength. Suitable for heavy-duty bundling and packaging applications.

ITEM

Reinforced Tape 50mm x 50m

WATERPROOF CLOTH TAPE

Cloth Tape is extremely strong, heavy-duty and versatile cloth tape, which is easy to tear and apply. Ideally suited for packing, repairing, joining, sealing, fixing, protecting and reinforcing. Adheres to a variety of surfaces including metal, wood, concrete, glass, paper, plastic, fabric and carpet tiles.

ITEM

Waterproof Cloth Tape Silver 50mm x 50m

Waterproof Cloth Tape Black 50mm x 50m

There's a whole lot more than just products we can help you with

Our Consumable Solutions team recognises the challenges that our customers face in managing the procurement of consumables. In some cases this can involve hundreds or thousands of line items or one off speciality products. We also understand that there is not one solution that fits all customers. That is why we have developed a range of solutions for our customers and will even offer a bespoke service where required.

consignment stock solutions

Traditional consignment supplied and managed by our team.

Removes the commitment to large stock holdings, as you pay only for goods used through our company owned stock. Free of Charge shelving units, restocking and hands on management enables close monitoring using the latest technologies. This approach allows for the provision of separate cost centres, within the business, and customer access to the same data and App, means there are several ways to form an in-depth analysis of the company's consumable spend.

personal stock solutions

Your own stock consignment, managed by our team.

The benefits of a stock management system, managed by us, enabling seamless onsite supply. Customer owned stock, with Free of Charge storage units and the latest technology to monitor and control stock levels, throughout a fixed price term. Regular data updates via an App, will be available to manage consumption and usage.

vending stock solutions

On site vending machines supplied and managed by our team.

On site vending machines supplied and managed by our team. Our Vending Solutions service for all your shop floor consumable needs. With 24/7 availability, reduced staff foot fall and savings of up to 50%, as well as full reporting systems, let our vending machines take the strain.

Other services we offer

With 30 years of experience, Sandrock Services specialise in delivering high-quality construction and reliable solutions for residential and commercial projects. Trust us to build your future.

Quality Construction | Exceptional Service | Timely Delivery

- **Residential & Commercial Projects**
- **Renovations & Remodelling**
- **Swimming Pools**
- **Custom Designs & Builds**
- **Patios & Driveways**
- **Metal Fabrication**

Sandrock Services was established in 1995 mainly as a construction company. Since then, we have evolved and gained multi-skilled tradesmen from all areas of the industry. We have accomplished bricklayers, carpenters, plumbers, and metal fabricators as well as expert knowledge of ground works, swimming pool design and construction.

Our Director, and Construction Managers have years of experience working in the domestic and commercial construction industry and have established strong working relationships with our long-standing clients.

Sandrock Services are Alcumus Safe Contractor Accredited. We are also registered with the NHBC and CITB.

To discuss your construction requirements please contact our experienced team at
office@sandrockservices.co.uk or call us on 01983 864246
